The Canon EOS 5D Mark IV is capable of extraordinary results, but only when you move beyond Auto and take intentional control. This camera has earned its reputation as a professional workhorse for photography and cinematic video. Yet many owners never unlock its full potential. Dense menus, unfamiliar autofocus options, exposure confusion, and inconsistent results leave users frustrated, second-guessing their settings, and missing important moments. They struggle because no one showed them how the camera is meant to be used in real shooting conditions. Without a clear workflow, users waste time hunting through menus, misconfigure autofocus, rely on trial and error, and wonder why their images lack consistency. This book solves that problem with a structured, practical approach. Inside this step-by-step, jargon-free user guide, you will learn: How to set up the Canon EOS 5D Mark IV correctly from the first power-on How to master the physical controls, dials, and Quick Control screen How to navigate Canon's menu system without confusion How to control exposure using Av, Tv, and Manual mode with confidence How to configure autofocus for portraits, action, wildlife, and events How to use AF Cases and focus area modes for reliable sharpness How to shoot RAW, manage ISO, and achieve accurate color every time How to customize buttons and My Menu for professional speed How to capture cinematic video using proper frame rates and exposure How to troubleshoot common problems that cost missed shots Unlike reference manuals or scattered online tutorials, this guide is designed as a working field manual. You are taught how to think through shooting scenarios,

not just which buttons to press. As a result, the camera becomes intuitive instead of intimidating. Your settings become intentional. Your results become consistent. This book is ideal for beginners, enthusiasts upgrading from older DSLRs, professionals refining their workflow, and anyone who wants dependable results from the 5D Mark IV without guesswork.
