The Wiley Handbook on What Works with Girls and Women in Conflict with the Law Shelley L. Brown 2022-03-14 The Wiley Handbook on What Works with Girls and Women in Conflict with the Law The most practical discussion of the rehabilitation of girls and women in conflict with the law in the correctional arena What Works with Girls and Women in Conflict with the Law is the leading examination of evidence-based practice in the field of gender-responsive corrections. Adopting an international and intersectional approach, the distinguished authors seek to collect the best available data and thinking on what works with girls and women and apply it to the real-world problems facing correctional systems today. As part of its contextual and rich approach to the subject, What Works with girls and women in conflict with the law, covers a broad variety of topics, ranging from theories of female involvement in crime, security classification and risk assessment, evidence-based treatment and supervision approaches, special populations (such as Indigenous women), to legal/policy developments in the field of gender-responsive corrections. Perfect for students and practitioners in the field of psychology, criminology, social work, criminal justice, and corrections, this is the only reference of its kind to focus on the practical applications of the latest theory.

[The Practice of Correctional Psychology](#)

Marguerite Ternes 2018-11-24 This highly accessible volume tours the competencies and challenges relating to contemporary mental health service delivery in correctional settings. Balancing the general and specific knowledge needed for conducting effective therapy in jails and prisons, leading experts present eclectic

theoretical models, current statistics, diagnostic information, and frontline wisdom. Evidence-based practices are detailed for mental health assessment, treatment, and management of inmates, including specialized populations (women, youth) and offenders with specific pathologies (sexual offenders, psychopaths). And readers are reminded that correctional psychology is in an evolutionary state, adapting to the diverse needs of populations and practitioners in the context of reducing further offending. Included in the coverage: · Assessing and treating offenders with mental illness. · Substance use disorders in correctional populations. · Assessing and treating offenders with intellectual disabilities. · Assessing and treating those who have committed sexual offenses. · Self-harm/suicidality in corrections. · Correctional staff: The issue of job stress. The Practice of Correctional Psychology will be of major interest to psychologists, social workers, and master's level clinicians and students who work in correctional institutions and settings with offenders on parole or probation, as well as other professionals within the correctional system who work directly with offenders, such as probation officers, parole officers, program officers, and corrections officers.

Community Re-Entry Alison Pedlar 2018-01-19

In their journeys to prison and community re-entry, women leaving prison tend to share overarching challenges connected to lives of poverty, trauma, and abuse. Community Re-Entry: Uncertain Futures for Women Leaving

Prison provides a rare opportunity to hear directly from women who have spent time in a Canadian federal penitentiary. Based on more than a decade of engagement with women in prison, the authors gathered rich and personal information on women's lived experiences during incarceration and what they anticipated and hoped for on release. This book relates their narratives and the authors' critical analysis of their experiences both within and outside prison. By bridging relational and other critical theories (critical feminist, critical race, critical disability, and post-structural understandings) with lived experience, this volume sheds light on the challenges incarcerated women face as they seek to return to the community as valued and contributing citizens. Community Re-Entry's unique perspective on women's post-imprisonment policy will appeal to academics, community-based advocates and activists, and undergraduate and postgraduate students studying criminology and social science courses on gender and crime, correctional policy, and qualitative research methods.

The Algorithmic Society Marc Schuilenburg 2020-12-29 We live in an algorithmic society. Algorithms have become the main mediator through which power is enacted in our society. This book brings together three academic fields - Public Administration, Criminal Justice and Urban Governance - into a single conceptual framework, and offers a broad cultural-political analysis, addressing critical and ethical issues of algorithms. Governments are increasingly turning towards algorithms to predict criminality, deliver public services, allocate resources, and calculate recidivism rates. Mind-boggling amounts of data regarding our daily actions are analysed to make decisions that manage, control, and nudge our behaviour in everyday life. The contributions in this book offer a broad analysis of the mechanisms and social implications of algorithmic governance. Reporting from the cutting edge of scientific research, the result is illuminating and useful for understanding the relations between algorithms and power. Topics covered include: Algorithmic

governmentality Transparency and accountability Fairness in criminal justice and predictive policing Principles of good digital administration Artificial Intelligence (AI) in the smart city This book is essential reading for students and scholars of Sociology, Criminology, Public Administration, Political Sciences, and Cultural Theory interested in the integration of algorithms into the governance of society.
