Home Wiring contains a carefully selected group

of home wiring projects that goes far beyond the

basics of adding a receptacle or rewiring a lamp.

Take your skill in working with electrical

systems to a new level. Projects include adding a

stand-alone, direct-current circuit powered by

the sun; installing an automatic standby power

system; replacing a main service panel;

grounding and bonding your electrical system;

installing a radiant flooring system; and working

with 240-volt and three-phase power. There are

also updated circuit maps to show available

neutral, information on AFCI-protected service

panels, and crucially important changes in GFCI

protection codes. All projects include clear

photos and are current with the 2014&#160;2017

National Electrical Code.
