Indian-made Erika Marie Bsumek 2008 "In works of silver and wool, the Navajos have established a unique brand of American craft. And when their artisans were integrated into the American economy during the late nineteenth century, they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment." "Bsumek unravels the layers of meaning that surround the branding of "Indian-made." When Navajo artisans produced their goods, collaborating traders, tourist industry personnel, and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves. And as Anglos consumed Navajo crafts, they also consumed the romantic notion of Navajos as "primitives" perpetuated by the

marketplace. These processes of production and consumption reinforced each other, creating a symbiotic relationship and influencing both mutual Anglo-Navajo perceptions and the ways in which Navajos participated in the modern marketplace." "Ultimately, Bsumek shows that the sale of Indian-made goods cannot be explained solely through supply and demand. It must also reckon with the multiple images and narratives that grew up around the goods themselves, integrating consumer culture, tourism, and history to open new perspectives on our understanding of American Indian material culture."--

Georgia Buddy Sullivan 2003

Georgia's past has diverged from the nation's and given the state and its people a distinctive culture and character. Some of the best, and the worst, aspects of American and Southern history can be found in the story of what is arguably the most important state in the South.

Yet just as clearly Georgia has not always followed the road traveled by the rest of the nation and the region.

Explaining the common and divergent paths that make us who we are is one reason the Georgia Historical Society has collaborated with Buddy Sullivan and Arcadia

Publishing to produce *Georgia: A State History*, the first full-length history of the state produced in nearly a generation. Sullivan's lively account draws upon the vast archival and photographic collections of the Georgia Historical Society to trace the development of Georgia's politics, economy, and society and relates the stories of the people, both great and small, who shaped our destiny. This book opens a window on our rich and sometimes tragic past and reveals to all of us the fascinating complexity of what it means to be a Georgian.

The Sovereign, Subject and Colonial Justice

K. C. Yadav

2022-11-30 This volume

analyzes the trial of Bahadur Shah, a watershed moment in the 19th-century colonial history of India. The trial of

Bahadur Shah raises the contentious issue of

sovereignty - trial of Emperor Bahadur Shah, de jure power

by de facto claimant to power, the English East India

Company. There has been a lot of confusion and controversy

over the trial ever since the proceedings began - its main

architects could not define if it really was a juristic trial, a

court of enquiry, a court-martial, or a general enquiry?

This book sheds light on this event through the original,

unprinted manuscript of the

Trial at the end of the uprising of the 1857. It critically

investigates the trial, mainly its

architecture, grammar, functioning, and findings from historical, political, and

juridical perspectives to determine, as far as possible,

the actual position of Emperor Bahadur Shah, his strengths,

and his weaknesses. Further, it examines the Rebellion of

1857, particularly in Delhi, and Bahadur Shah's role therein. A

key reading on justice in colonial history, this volume

will be of interest to researchers and scholars of

colonial and imperial history, modern history, political

theory, and South Asia studies. It will also be of great interest

to general readers interested in learning about the colonization

of India by the British and its commercial arm East India

Company.
