Math You Can Play Combo

Denise Gaskins 2015-08-19

Math Your Kids WANT to Do.

You'll love these math games  
because they give your child a

strong foundation for  
mathematical success. By  
playing these games, you  
strengthen your child's  
intuitive understanding of  
numbers and build problem-  
solving strategies. Mastering a  
math game can be hard work.

But kids do it willingly because  
it's fun. Math You Can Play

Combo features two books in  
one, with 42 kid-tested games

that offer a variety of

challenges for preschool and

school-age learners. Chapters include:

- **Early Counting:** Practice subitizing — recognizing small numbers of items at a glance—and learn the number symbols.
- **Childhood Classics:** Traditional folk games invite the whole family to enjoy playing with math.
- **Number Bonds:** Build a mental picture of the relationships between numbers as you begin to explore addition.
- **Numbers to One Hundred:** Develop mental math skills for working with larger numbers. Practice using place value, addition, and subtraction.
- **Mixed Operations:** Give mental muscles a workout with games that require number skills and logical thinking.
- **Logic and Probability:** Logic games sharpen inductive and deductive thinking skills, while games of chance build an intuition for probability. Math games prevent math anxiety. Games pump up your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use

these games to enjoy quality time with your children. Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' math skills. So what are you waiting for? Clear off a table, grab a deck of cards, and let's play some math!
