Geography South Africa. Department of Education 2010

Social Studies Education in South and South East Asian Contexts Kerry J Kennedy 2021-07-22 The education of young people is context bound. This edited volume explores the contexts that characterise South and South East Asia and their influence on social studies education. There is not a single context across this broad geographical expanse, rather different religions, different political systems and different values exert influences that create distinctive programmes that characterise different countries. Yet there are also commonalities such as the post-colonial nature of most of the countries portrayed in this book, determined efforts at establishing new national communities and multiple value systems that lead to distinctive local priorities. There are also voices of resistance in these chapters, recognising the realities of local contexts but also recognising the need for change. Social studies education in these contexts may well be descended from its origins in North America, but in South and South Asian contexts, it has taken on new purposes, new forms and new values. Education researchers, policymakers and postgraduate students in comparative education will find the volume useful in its exploration and comparison of the social studies curricular and reforms that shaped them.

Psychosocial Skills and School Systems in the 21st Century Anastasiya A Lipnevich 2016-04-02 This book provides a comprehensive overview and in-depth analysis of research on psychosocial skills, examining both theory and areas of application. It discusses students' psychosocial skills both as components of academic success and desired educational outcomes in grades K through 12. The book describes an organizing framework for psychosocial skills and examines a range of specific constructs that includes achievement, motivation, self-efficacy, creativity, emotional intelligence, resilience, and the need for cognition. In addition, it reviews specific school-based interventions and examines issues that concern the malleability of psychosocial skills. It addresses issues relating to the integration of psychosocial skills into school curriculum as well as large-scale assessment policies. Topics featured in this book include: Development of psychosocial skills in grades K-12. Assessment of psychosocial skills. Conscientiousness in education and its relation to meaningful educational outcomes. Creativity in schools, including theory, assessment, and interventions. Academic emotions and their regulation through emotional intelligence. Resilience and school-based programs aimed at enhancing it. Psychosocial Skills and School Systems in the 21st Century is a must-have resource for researchers, graduate students, clinicians, mental health professionals, and policymakers in child and school psychology, educational policy and politics, public health, social work, developmental psychology, and educational psychology.
