The School Services Sourcebook, Second Edition Cynthia Franklin

2013-01-31 A state-of-the-art revision of the sourcebook that is a must-have for all school-based social workers, counselors, and mental health professionals.

Academic Skills Problems Edward S. Shapiro 2023-07-24 "Now in a revised and expanded fifth edition that reflects current research and best practices in direct assessment and intervention, this text addresses a perennial need for school practitioners and practitioners in training. Presented is a comprehensive, problem-solving-based approach for working with K-12 students who are struggling with reading, writing, or mathematics. The book provides a framework for evaluating the instructional environment as well as each student's context and unique learning needs; planning instructional modifications; and monitoring progress. The companion workbook, available separately, contains practice exercises and reproducible forms. Subject areas/key words: school psychology texts, assessing, curriculum-based, evaluations, measurement, measures, testing, observation, reading, mathematics, writing, multi-tiered systems of support, MTSS, RTI, learning disabilities, difficulties, struggling readers, students, handbooks Audience: School psychologists, K-12 school administrators, special educators, and classroom teachers; graduate students and researchers in these fields. Together with the companion workbook, will serve as a text in graduate-level courses on academic assessment and intervention"--

Simplifying Response to Intervention Austin Buffum 2011-10-29 The sequel to Pyramid Response to Intervention advocates that a successful RTI model begins by asking the right questions to create a fundamentally effective learning environment for every student. RTI is not a series of implementation steps, but rather a way of thinking. Understand why bureaucratic, paperwork-heavy, compliance-oriented, test-score-driven approaches fail. Then learn how to create a focused RTI model that works.
