The Wisdom of the Aramaic Book of Ahiqar Seth Bledsoe 2021-10-25 This book offers fresh readings of the Aramaic book of Ahiqar, an oft underappreciated ancient wisdom text. In undertaking a comprehensive literary analysis, incorporating both the drama and the sayings together, Bledsoe shows that Ahiqar's didactic impulse is founded on a sense of uncertainty about life, offering advice for those in times of distress, much like the titular character himself. While Ahiqar shares many features with instructional literature like Proverbs, the ambiguous cosmic and social order imagined in the text resonate more strongly with the likes of Qoheleth or Job. Bledsoe also takes seriously the Elephantine context, suggesting that the social and political ethic evinced by the work would have resonated strongly with the Judean community in Achaemenid Egypt.

Writing a Research Paper Lionel Menasche 1990-04

Quality Research Papers Nancy Jean Vyhmeister 2020-05-19 This will be the fourth edition of a time-tested resource for students writing papers in the fields of religion and theology. It provides essential guidance for writing assignments typical in graduate programs in religion and has served as a standard textbook for seminary research courses. The fourth edition is updated to include information on Turabian 9th edition, SBL Handbook 2nd edition, new resource lists, and additional help with online resources and formatting issues. Most importantly, this new edition is revised from the perspective of information abundance rather than information scarcity. Today's research mindset has shifted from "find anything" and "be satisfied with anything" to "choose intentionally" reliable and credible sources. Quality Research Papers will guide students through an overabundance of online and library resources and help them craft excellent essays.

Business Research Reporting Dorinda Clippinger 2017-12-05 Business Research Reporting addresses the essential activities of locating, collecting, evaluating, analyzing, interpreting, and reporting business data. It highlights the value of primary and secondary research to making business decisions and solving business problems. It aims to help business managers, MBA candidates, and upper-level college students boost their research skills and report research with confidence. This book discusses primary data collection, sampling concepts, and the use of measurement and scales in preparing instruments. Also, this book explores statistical and non-statistical analysis of qualitative and quantitative data and data interpretation (findings, conclusions, and recommendations). The author shows how to locate, evaluate, and extract secondary data found on the web and in brick-and-mortar libraries, including optimized searching, evaluating, and recording. Plus, the book demonstrates how to avoid copyright infringement and plagiarism, use online citation software, and cite sources when writing and presenting. Two glossaries—one each for primary and secondary research—round out the content. Business Research Reporting can be your go-to guidebook for years to come. Reading through it in a couple of hours, you can pick up ample information to apply instantly. Then keep it handy and refer to it in your ongoing research activities.

Cites and Sources Jane Haig 2003 Cites and Sources is a brief guide to writing, documenting and formatting a paper in the social and behavioural sciences. At only 71 pages this succinct guide provides helpful advice and clear instructions. The text is four-colour and is coil bound so that it lies flat, which makes key information easy to find. Sample papers, reference pages, reports and cover pages are clearly annotated. The citation of all sources is covered fully with examples and electronic sources are fully explained.

The Pharmaceutical Era 1893

From Sources to Citation Richard Charnigo 1996 This brief research paper guide answers the questions students usually ask when writing their first research paper. Taking a hands-on approach, this student-friendly guide provides careful descriptions of fifty "do-able" writing topics from which students can choose.
