Religion and AIDS Treatment in Africa Hansjörg Dilger 2016-04-08 This book critically interrogates emerging interconnections between religion and biomedicine in Africa in the era of antiretroviral treatment for AIDS. Highlighting the complex relationships between religious ideologies, practices and organizations on the one hand, and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other, this anthology charts largely uncovered terrain in the social science study of the Aids epidemic. Spanning different regions of Africa, the authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions, religious practices and moralities as they co-evolve in situations of AIDS treatment. This book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life-prolonging treatment programmes.

The Black Homelands of South Africa Jeffrey Butler 1978-10-09 Monograph examining the political development and economic development of the Black homelands regions of Bophuthatswana and Kwazulu. Covers legal aspects of apartheid, political and economic administration, sources of income and public finance, leadership development and homeland public administration, etc., and comments on relevant legislation and future development planning.

The Spirit of Leadership Reuel Khoza 2024-05-01 In 2023, Reuel Khoza unsealed a letter to the future, which he had written in 1999 when he was chair of Eskom, at the time recognised as the best power utility in the world. It was an optimistic letter, expressing hopes that have since been dashed by corruption and maladministration - by a failure of ethical leadership. Khoza has written about leadership before - considering the importance of intelligence, emotional intelligence and social awareness. Now he broadens his focus to explore the role of spirituality - a 'faith quotient' - in transformational leadership. The Spirit of Leadership is about faith in humanity and, above all, faith in God. It is about being an African and a Christian, and a strong believer in the virtues of ubuntu, Africa's philosophy of humanness. It is about ancestral wisdom and modern leadership. It is about progress through ethical behaviour and good governance in business. Finally, it is about innovations of the spirit that are needed to save South Africa - and indeed the world - from a spiral of despair. This is a vital and timely book for a country that needs to rediscover its moral compass.

The Road to Democracy in South Africa: 1970-1980 South African Democracy Education Trust 2004 v. 3: The third volume in the series examines the role of anti-apartheid movements around the world. The global anti-apartheid movement was very successful in creating awareness of the liberation struggle in South Africa, and in contributing to the downfall of the apartheid government. This volume, in 2 parts, brings together analyses which in the main are written by activist scholars with deep roots in the movements and organizations they are writing about.

Soweto Pauline Morris 1980 The Urban Foundation, registered as an association not for gain, was established following a conference on the quality of life in urban areas in November 1976, which was attended by many of South Africa's leading businessmen and community leaders. Its objectives are to work with urban residents to improve their quality of life, acting as a catalyst by mobilising the resources of the private sector, involving communities and gaining the co-operation of the authorities. Soweto is the largest urban Black community in South Africa. The Urban Foundation sees its role as one of helping this community solve its problems by bringing it together with the private sector in projects, and by lobbying for appropriate policy and procedure changes at all levels of Government.
