Guidelines to Support Implementation of the Great Bear Rainforest Order with Respect to Old Forest and Listed Plant Communities Allen Banner 2019 "The Great Bear Rainforest Order (GBRO), established January 2016, presents legal objectives for the protection of Old Forests and Red- and Blue-Listed Plant Communities (Listed Communities) within the timber harvesting land base of the Great Bear Rainforest. Although the direction on management and conservation of both Old Forest and Listed Communities is conceptually straightforward, practical field implementation is challenging due to the lack of explicit field assessment criteria. This guidance document provides an overview of key aspects of the GBRO with respect to Old Forest and Listed Communities, and interpretation of the text in the GBRO with reference to current ecological concepts. Additionally, the document discusses how the GBRO text relates to the B.C. Conservation Data Centre methods for assessing Red- and Blue-Listed Ecological Communities. A set of field keys is provided to facilitate consistent application of ecological concepts to meet the intent of the GBRO objectives for Old Forest and Sufficiently Established Listed Communities. The keys incorporate initial minimum criteria for certain ecological features, and an index that integrates a suite of old forest attributes (the Forest Attribute Score) based on features that reflect the complexity of these older coastal, forested ecosystems. Both keys require the field practitioner to determine stand age and occurrence of a Veteran Overstory Tree layer. To evaluate the requirement for protection of Listed Communities, the level of understory development must also be evaluated. Calculation of a Forest Attribute Score requires the assessment of six stand attributes: density of Veteran Overstory Trees, density of large snags, vertical canopy differentiation, understory shrub

and herb cover, amount of coarse woody debris, and stand disturbance history."--Publisher's website.

Abolitionist Intimacies El Jones 2022-11-02T00:00:00Z In *Abolitionist Intimacies*, El Jones examines the movement to abolish prisons through the Black feminist principles of care and collectivity. Understanding the history of prisons in Canada in their relationship to settler colonialism and anti-Black racism, Jones observes how practices of intimacy become imbued with state violence at carceral sites including prisons, policing and borders, as well as through purported care institutions such as hospitals and social work. The state also polices intimacy through mechanisms such as prison visits, strip searches and managing community contact with incarcerated people. Despite this, Jones argues, intimacy is integral to the ongoing struggles of prisoners for justice and liberation through the care work of building relationships and organizing with the people inside. Through characteristically fierce and personal prose and poetry, and motivated by a decade of prison justice work, Jones observes that abolition is not only a political movement to end prisons; it is also an intimate one deeply motivated by commitment and love.

School Construction Strategies for Universal Primary Education in Africa Serge Theunynck 2009 This book examines the scope of the infrastructure challenge in Sub-Saharan Africa and the constraints to scaling up at an affordable cost. It assesses the experiences of African countries with school planning, school facility designs, construction technologies, and construction management over the past thirty years, and draws lessons on promising approaches to enable African countries

to scale up the facilities required to achieve the Education for All (EFA) goals and Millennium Development Goals (MDGs) of complete quality primary education for all children at the lowest marginal cost. The book is organized along the following lines. Chapter one reviews the nature and scope of the primary school infrastructure challenges. Chapter two reviews the experience of African countries with school planning and resource allocation norms and how they have affected the volume, functionality, and distribution of primary school facilities. Chapters three, four, and five examine the impact of construction technology and approaches to construction management on the cost of school infrastructure and the ability to scale up. Chapter six delves more deeply into how to set up one of the most cost-effective approaches to school provision the community-based approach. Chapter seven looks at maintenance issues. Chapter eight deals with corruption and chapter nine with donors. Chapter ten provides an estimate of the infrastructure cost of the EFA challenge and recommendation for countries and donors to improve the efficiency of the resources spent for school construction.
