Elementary Statistics Allan G. Bluman 1994 Geared toward the student without a strong mathematical background, this text uses a non-theoretical approach in which concepts are explained intuitively and are supported by examples. Students majoring in such fields as natural and social sciences, business, economics, and computer science will understand how statistics applies to their chosen field through the use of examples drawn from such disciplines.

Elementary Statistics Allan G. Bluman 2001 New edition of a beginning statistics text for students whose mathematical background is limited to basic algebra. Bluman (Community College of Allegheny County) uses a nontheoretical approach in which concepts are explained intuitively and are supported by examples. There are no formal proofs, and the applications include problems from business, economics, health, medicine, science, engineering, social science, education, and topics of general interest. Each of the eight chapters begins with an outline and a list of learning objectives. Contains a removable foldout of important formulas.
