Funding Journalism in the Digital Age Jeff Kaye 2010 The news media play a vital role in keeping the public informed and maintaining democratic processes. But that essential function has come under threat as emerging technologies and changing social trends, sped up by global economic turmoil, have disrupted traditional business models and practices, creating a financial crisis. Quality journalism is expensive to produce - so how will it survive as current sources of revenue shrink? *Funding Journalism in the Digital Age* not only explores the current challenges, but also provides a comprehensive look at business models and strategies that could sustain the news industry as it makes the transition from print and broadcast distribution to primarily digital platforms. The authors bring widespread international journalism experience to provide a global perspective on how news organizations are evolving, investigating innovative commercial projects in the United States, United Kingdom, Australia, Norway, South Korea, Singapore and elsewhere.

Emerging Genres in New Media Environments Carolyn R. Miller 2016-11-25 This volume explores cultural innovation and transformation as revealed through the emergence of new media genres. New media have enabled what impresses most observers as a dizzying proliferation of new forms of communicative interaction and cultural production, provoking multimodal experimentation, and artistic and entrepreneurial innovation. Working with the concept of genre, scholars in multiple fields have begun to explore these processes of emergence, innovation, and stabilization. Genre has thus become newly important in game studies, library and information science, film and media studies, applied linguistics, rhetoric, literature, and elsewhere. Understood as social recognitions that embed histories, ideologies, and contradictions, genres function as recurrent social actions, helping to constitute culture. Because genres are dynamic sites of tension between stability and change, they are also sites of inventive potential. *Emerging Genres in New Media Environments* brings together compelling papers from scholars in Brazil, Canada, England, and the United States to illustrate how this inventive potential has been harnessed around the world.

Mr. Penumbra's 24-Hour Bookstore Robin Sloan 2012-10-02 The Great Recession has shuffled Clay Jannon out of his life as a web-design drone, and serendipity, sheer curiosity and the ability to climb a ladder like a monkey have landed him a new gig working the night shift at Mr. Penumbra's 24-Hour Bookstore. But Clay begins to realize that this store is even more curious than its name suggests. There are only a few customers, but they come in repeatedly and never seem to actually buy anything. Instead they "check out" impossibly obscure volumes from strange corners of the store, all according to some elaborate, long-standing arrangement with the gnomish Mr. Penumbra. The store must be a front for something larger, Clay concludes, and soon he has embarked on a complex analysis of the customers' behaviour and roped his friends into helping him figure out just what's going on. But once they take their findings to Mr. Penumbra, they discover the secrets extend far beyond the walls of the bookstore. Evoking both the fairy-tale charm of Haruki Murakami and the enthusiastic novel-of-ideas wizardry of Neal Stephenson or Umberto Eco, Mr. Penumbra's 24-Hour Bookstore is exactly what it sounds like—an establishment you have to enter and will never want to leave.
