**Learning Business Statistics with Microsoft Excel** John L. Neufeld 1997 Each chapter is organised around a particular statistical concept or technique of relevance to the business or management student

**Statistics for Management and Economics** Gerald Keller 2003 STATISTICS FOR MANAGEMENT AND ECONOMICS is the worldwide best selling business statistics text. It is currently being used at hundreds of colleges and universities throughout the world. This text teaches students how to apply statistics to real business problems through the authors' unique three-step approach to problem solving. Students learn to IDENTIFY the right technique by focusing on the relationship between the problem and data type. They then learn to COMPUTE the answer either by hand, using Excel, or using MINITAB. Finally, they INTERPRET the results in the context of the problem. This approach enhances student comprehension as well as practical skills, and offers maximum flexibility to instructors wishing to teach concepts by hand or with the computer,

or by using both hand and computer methods.

**Principles of Assessment and Outcome Measurement for Occupational Therapists and Physiotherapists** Alison Laver Fawcett 2013-03-15 This textbook on assessment and outcome measurement is written for both occupational therapy and physiotherapy students and qualified therapists. It begins by defining what is meant by assessment, outcome, evaluation and measurement and discussing the complexity of therapy assessment and measurement, including the challenge of measuring human behaviour and the impact of factors such as task demand and context, including the environment. Methods of data collection (e.g. observation, interview, standardised testing) and sources (e.g. self-report, proxy) for collecting information about clients are then reviewed, and the main purposes of assessment (e.g. descriptive, evaluative, predictive, discriminative) presented. The book then addresses the topics of standardisation, levels of measurement, reliability, validity and clinical utility. There is a chapter describing and applying models for categorizing levels of function to aid assessment and measurement. The concept of clinical reasoning and reflective practice is then explored. Application of principles is supported through detailed case studies and worksheets and the criteria for test critique and guidelines for choosing a particular assessment approach are discussed.

**Developing Clinical Competence** Marie

Morreale 2024-06-01 A newly updated, user-friendly resource for occupational therapy assistant students and new practitioners, *Developing Clinical Competence: A Workbook for the OTA, Second Edition* assists readers in developing practical problem-solving and ““real-life”” skills essential for fieldwork and clinical practice. Maintaining the easy-to-read workbook format from the First Edition, this book is filled with learning activities, worksheets, and detailed answer explanations, as well as expanded chapter content and revised references. Marie J. Morreale breaks down competencies into step-by-step units to allow for independent study. With multiple choice, matching, true/false, and fill-in-the-blanks questions; case studies; vignettes; and experiential activities, this Second Edition presents helpful tips in their most useful format. Guiding the reader through occupational therapy clinical decision making, professional conduct, and meeting standards of care for various practice areas, each chapter is fully independent and can be read in the order most conducive to the reader’s individual learning needs. This text can help readers measure attainment of knowledge and skills when preparing for fieldwork, the national certification exam, or transitioning to entry-level practice. New for the Second Edition: Fundamental topics including effective communication, assessment of client function, safety, supervision, documentation, group process, and department management Additional questions regarding behavioral health and pediatric practice Expanded content for professionalism, ethics, cultural sensitivity, and interventions to support occupations Topics such as wheeled mobility, hand function development, infection control, feeding/eating, wound care basics, quality improvement, and more Added content regarding the American Occupational Therapy Association documents, evidence-informed practice, advocacy, chronic conditions, and new trends Incorporated concepts and principles from the Occupational Therapy

Practice Framework: Domain and Process, Fourth Edition Included with the text are online supplemental materials for faculty use in the classroom. Addressing fundamental areas of occupational therapy practice for a wide variety of conditions, situations, and practice settings, *Developing Clinical Competence: A Workbook for the OTA, Second Edition* includes helpful hints and practical clinical tips to help the OTA implement appropriate interventions and communicate more effectively.
