Student Solutions Manual, Chemistry, Principles & Practice, Second Edition John M. DeKorte 1997

Basic Concepts of Chemistry, Study Guide Leo J. Malone 2000 The text's three main goals are to introduce chemistry as a living, relevant science, to encourage learning and critical thinking, and to help readers overcome the math difficulties that impede their progress in chemistry. Designed to help readers master the principles of general chemistry. As a prep book, it promotes active involvement with the material. There are special features throughout that reinforce concepts and help to develop strong problem solving and study skills. Updated to Include an Interactive Learning Ware problems CD containing several of the chapter ending problems from the book in an interactive tutorial with feedback to help readers set up and solve problems.

Chemistry James C. Hill 2000 This text defines the concepts needed to learn or review cardiac auscultation. The combination of audio and text explains how to identify and interpret normal and common abnormal heart sounds. Some heart sounds are reproduced on a heart sound simulator, allowing for a clear, crisp grasp of specific, individual sounds. Others are recorded from real patients to distinguish between similar heart and lung sounds, and to help the listener select the heart sounds from the auditory milieu.
