**Digital Entertainment Superguide** Audio and video content is all around us. And these days much of it comes not from TV cables, satellite dishes, and radio antennas, but from our digital devices around the house, streaming over the Internet and local networks. And that's why we created the Digital Entertainment Superguide, a primer with everything you need to know to get started. This book walks you through how to set up your home network and choose the right hardware—set-top boxes, smart TVs, media center computers, streaming speakers, remote controls, and more—for your needs. Like to watch TV shows and movies but not sure where to find what? We've got you covered with a guide to streaming video sources for your TV or mobile devices. We don't leave music lovers out either, as we help you choose the best streaming audio service. Do you want Mog, Rdio, Rhapsody, Slacker, or Spotify? How much does each service cost? Which sounds best? We answer all those questions and more in the pages that follow. Finally, if you're wondering how to move audio and video around the house—stream music wirelessly from an iPhone to an AirPlay speaker in the living room or send video from a computer to your beautiful wall-mounted HDTV—you've come to the right place. We'll even show you how to use your smartphone or tablet to control it all. So read on, and let the fun begin!

TV Guide 2004-11

*Social TV* Mike Proulx 2012-01-26 The Internet didn't kill TV! It has become its best friend. Americans are watching more television than ever before, and we're engaging online at the same time we're tuning in. Social media has created a new and powerful "backchannel", fueling the renaissance of live broadcasts. Mobile and tablet devices allow us to watch and experience television whenever and wherever we want. And "connected TVs" blend web and television content into a unified big screen experience bringing us back into our living rooms. Social TV examines the changing (and complex) television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities. Social TV topics include: Leveraging the "second screen" to drive synched and deeper brand engagement Using social ratings analytics tools to find and target lean-forward audiences Aligning brand messaging to content as it travels time-shifted across devices Determining the best strategy to approach marketing via connected TVs Employing addressable TV advertising to maximize content relevancy Testing and learning from the most cutting-edge emerging TV innovations The rise of one technology doesn't always mean the end of another. Discover how this convergence has created new marketing opportunities for your brand.
