The purpose and intent of the Common Core standards for English Language Arts (ELA), as well as Literacy in History/Social Studies and Science education, are the focus of this book. This volume is aimed at educators, administrators, graduate students, university professors, and others who deal with students in grades 3 through 5. Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. They contain invaluable information, insight, and research from literacy leaders in their respective fields. Their objective is twofold: to provide a theoretical background and detailed explanation of each of the CCSS/ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards"--
