Consulting the runes can be like talking to an old friend: you may know the truth, but sometimes you need to hear it before you believe it. Rune reading uses your intuitive wisdom to help you see a little further, feel a little deeper, and reach a little higher. Before Christianity spread to northern Europe, the indigenous peoples of that region were Germanic tribes, like the Anglo-Saxons, Goths, and Norsemen. Runes were the letters of their alphabets. Over time these letters developed rich symbolic meanings, passed down through poems and myths. Like most pre-Christian cultures, the Germanic peoples were polytheistic, and they revered natural elements as sacred. When you pick up the runes, you are entering a vibrant world, grounded in nature and everyday life, yet full of heroes, gods, and mythology. Most of what we know about runes comes from just a few ancient poems. Some books pick and choose the easier elements

from each poem, while overlooking anything too difficult or unpleasant. But it's clear from the poems that runes have a dark side-and we know from history that the people who used them were both fearless and fearsome. This book doesn't leave anything out. All of the mystical beauty is there, and so is the fighting spirit. The Runes gives you strong, unfiltered runes with a hard-enough edge to face anything that comes up. The Runes Jonathan Dee 2007

Don't miss out on the life-changing opportunity of learning how to use them as a way of connecting to your higher self and dealing with all kinds of problems life might throw at you.

**The Practical Guide To Using Ancient Runes For Modern Divination** Dayanara Blue Star 2015-02-15 Runes are an ancient method of divination that still remain popular and useful today. Many

people find them intriguing, because of their unique history and specific means of divination. Unlike fortune telling, runes are used to delve into a person's subconscious, and explore their true desires. They can be a wonderful aid in meditative practice, gaining self-awareness, or just getting some more perspective on various situations in your life. To people unfamiliar with divination tools, it may seem like some kind of spooky magic trick, witchcraft or even something demonic. None of those descriptions are accurate, and actually, runes encourage a person to explore their own mind and gain self-inspection. Initially part of an ancient Germanic alphabet, Runes have existed for hundreds of years. Versions of runes have been found in many different cultures all across the world, with stones created in a multitude of alphabets and designs. Simply put, runes are an old relic that has survived the test of time and is still proven useful today. The stones are a simple oracle which one

can use to stimulate the thinking process. When the stones are cast, they aren't always entirely specific, meaning it is up to you to consider what they are telling you and how it relates to what you were asking. This often opens that pathway for critical thinking, solving problems and reducing stress.

**Master of the Runes** R. C. Fordham  
2017-02-04 Master of the Runes is perhaps the most powerful book ever written on the runes. Both the novice and the expert will find the material inside useful. Master of the Runes seeks to explain an extra dimension to the runes that so many prior authors have left out. This book is not only about the meanings of the runes. It explores the meanings and then talks about WHY they mean what they do. We will explore many connections and explanations not discussed by other authors. Enough said -

this is not your typical pocket book. It was written to turn you into a Rune Master. You may have come in contact with many rune books in your past explorations. Some may have left you hungry for more. Most, without doubt, only told you what the runes mean. These books are for memorization and do not help you form the knowledge to understand the intricate system of the Elder Futhark. Unlike those books, The Master of the Runes is the ultimate guide to the Futhark Runes in the Germanic context. There is so much information contained within that you will not walk away hungry. You will be prepared to understand the runes in your own way and in your own terms. More importantly you will understand them as our ancestors meant for them to be understood. The runes provide initiation into higher ways of thinking that transcend the material plane. As progression is made in studying the runes, the quality of understanding the world deepens. The student is able to peel back the layers

of reality. In one way this works on a macro level. In another perspective this works on the micro. After all, the universe is a hologram of the self. To achieve a deeper understanding of the runes requires us to work with them. Only through practice, will the runes open up their symbolic meaning to you. This process is known as runic revelation. When Odin seized the runes, he did not merely conceptualize them as we would a letter in the alphabet. He took within him their meaning. This required Odin to sacrifice himself to himself on Yggdrasil. By suspending the animation of his body, he was able to penetrate through the confines of time-space and imposed contingencies. This book will conceptualize the runes of the Elder Futhark with my emphasis upon the Germanic Futhark. However, I will discuss elements from all futharks in order to paint a greater picture. I will also use other Indo-European traditions and etymologies to elaborate on knowledge that has been

obscured through the sands of time.
