glossary? So that right from the beginning readers learn to 'speak digital.' Koelling demystifies the process of planning and managing a digitizing project, including important issues of copyright and ethics, choosing equipment, weighing technical alternatives, and creating databases. These are not the trendy details that will be out of date next month but the core issues everyone needs to understand so they can make good decisions and plan projects with long-term benefits. Koelling reminds us, too, that these projects can be both fun and satisfying to work on. Don't miss the last chapter on image enhancement-history detectives have a great new technique at their fingertips.

**Return to Volcano Town R.**

Wally Johnson 2023-10-24  
Wally Johnson and Neville Threlfall re-examine the explosive volcanic eruptions that in 1937-43 killed more than 500 people in the Rabaul area of East New Britain, Papua New Guinea. They reassess this disaster in light of

the prodigious amount of new scientific and disaster-management work that has been undertaken there since about 1971, when strong tectonic earthquakes shook the area. Comparisons are made in particular with volcanic eruptions in 1994-2014, when half of Rabaul town was destroyed and then abandoned. A striking feature of historical eruptive periods at Rabaul is the near-simultaneous activity at Vulcan and Tavurvur volcanoes, on either side of Rabaul Harbour. Such rare 'twin' eruptions are interpreted to be the result of a common magma reservoir beneath the harbour. This interpretation has implications for ongoing hazard and risk assessments and for volcano monitoring in the area.
