Eight Through Twelve Clifford Best 2014-11-20 I

became a believer in Jesus Christ after I turned forty. As a result of my new converted perspective, I started seeing my former self in people who thought they were saved but weren't. I also met people who doubted their salvation, people who couldn't explain why they were saved, and others who admitted their faith was unfulfilling. I subsequently determined that their weak spiritual condition was the result of not having a personal relationship with Christ Jesus. That's because they never became acquainted with him by studying his life and ministry as recorded in the Gospels. I wrote *Eight Through Twelve* to show believers that anyone who has a humble heart and a desire to know Jesus more intimately can indeed draw closer to him by studying his ministry as recorded in the Gospels. In these five chapters in the Gospel of Matthew, the reader will learn that Jesus described himself using three distinct titles - Shepherd, Teacher, and Master. It is my hope that a sincere study of Jesus' life using this book will lead readers into a more clear relationship with him as his sheep, student, and servant. We can't truly understand Jesus until

we know him. And without knowing him, we can't truly love him. But if we love Jesus as our Savior and Master, we can love others the way he loves us. That is my prayer for anyone who seeks to know Jesus using *Eight Through Twelve*.

Much of teachers' attention these days is focused on having students read closely to ferret out the author's intended meaning and the devices used to convey that meaning. But we cannot forget to guide students to have moving engagements with literature, because they need to make strong personal connections to books of merit if they are to become the next generation of readers: literate people with awareness of and concern for the diversity of human beings around them and in different times and places. Fortunately, guiding both students' personal engagement with literature and their close reading to appreciate the author's message and

craft are not incompatible goals. This book enthusiastically and intelligently addresses both imperatives, first surveying what is gained when students are immersed in literature; then celebrating and explicating the main features of literature students need to understand to broaden their tastes and deepen their engagement, at the same time they meet external standards; then presenting a host of active methods for exploring all major genres of children's books; and finally presenting suggestions for interdisciplinary teaching units grounded in literature. Created by noted leaders in the fields of children's literature and literacy, the book is enlivened by recurring features such as suggested reading lists, issues for discussion, links to technology, and annotations of exemplary books.
