Foundations of Sports Coaching Paul E. Robinson 2010-02-25 Athletes and sports people

at all levels rely on their coaches for advice, guidance and support. Foundations of Sports Coaching is a comprehensive introduction to the practical, vocational and scientific principles that underpin the sports coaching process. It provides the student of sports coaching with all the skills, knowledge and scientific background they will need to prepare athletes and sports people technically, tactically, physically and mentally. With practical coaching tips, techniques and tactics highlighted throughout, the book covers all the key components of a foundation course in sports coaching, including: the development of sports coaching as a profession coaching styles and technique planning and management basic principles of anatomy, physiology, biomechanics, and psychology fundamentals of training and fitness

performance analysis reflective practice in coaching. Including international case-studies throughout and examples from top-level sport in every chapter, *Foundations of Sports Coaching* helps to bridge the gap between coaching theory and practice. This book is essential reading for all students of sports coaching and for any practising sports coach looking to develop and extend their coaching expertise.

British Vocational Qualifications Kogan Page 2003 Over the last decade as the importance of vocational qualifications has been firmly established, the system has become increasingly complex and hard to grasp. Now in its sixth edition, this popular and accessible reference book provides up-to-date information on over 3500 vocational qualifications in the UK. Divided into five parts, the first clarifies the role of the accrediting and major awarding bodies and explains the main types of vocational qualifications available. A directory then lists over 3500 vocational qualifications, classified by

professional and career area, giving details of type of qualification, title, level, awarding body and, where possible, the course code and content. The third section comprises a glossary of acronyms used, together with a comprehensive list of awarding bodies, industry lead bodies, professional institutes and associations, with their contact details. Section four is a directory of colleges offering vocational qualifications in the UK, arranged alphabetically by area. Finally, section five is an index of all qualifications, listed alphabetically by title.

BTEC National Sport and Exercise Science

Student Book Adam Gledhill 2007-07 Suitable

for BTEC National Sport and Exercise Sciences to match Edexcel's 2007 specification, this book covers the curriculum in manageable chunks that link to the specification headings, so that

students can be confident that they have covered the underpinning theory they need. It features a full-colour format.

BTEC National Sport Ray Barker 2003 This student text provides coverage of all the underpinning knowledge for the compulsory units. It includes lots of activities for reinforcing students' learning as well as for building their portfolio, and integrates key skills learning as well as identifying opportunities to bring in citizenship.
