Hardware Acceleration of Computational Holography Tomoyoshi Shimobaba 2023-07-17

This book explains the hardware implementation of computational holography and hardware acceleration techniques, along with a number of concrete example source codes that enable fast computation. Computational holography includes computer-based holographic technologies such as computer-generated hologram and digital holography, for which acceleration of wave-optics computation is highly desirable. This book describes hardware implementations on CPUs (Central Processing Units), GPUs (Graphics Processing Units) and FPGAs (Field Programmable Gate Arrays). This book is intended for readers involved in holography as well as anyone interested in

hardware acceleration.
