A Wizard of Their Age Cecilia Konchar Farr 2015-01-01
A Wizard of Their Age began when the students in Cecilia Konchar Farr's "Six Degrees of Harry Potter" course at St. Catherine University kept finding errors in the available scholarship. These students had been reading Harry Potter for their entire literate lives, and they demanded more attention to the details they found significant. "We can do better than this," they said. Konchar Farr, two undergraduate teaching assistants, and five student editors decided to test that hypothesis. After issuing a call for contributions, they selected fifteen thoughtful academic essays by students from across

the country. These essays examine the Harry Potter books from a variety of perspectives, including literary, historical, cultural, gender, mythological, psychological, theological, and genetic—there is even a nursing care plan for Tom Riddle. Interspersed among the essays are brief vignettes entitled "My Harry Potter Story," where students write about their personal encounters with the novels. Although a quick Internet search yields a dazzling number of books about Harry Potter, few are as deeply invested or insightful as *A Wizard of Their Age*. Written and edited by—and for—members of the Harry Potter generation, these essays demonstrate this generation's passionate engagement with the Harry Potter phenomenon and provide numerous critical insights into the individual novels and the series as a whole.

Victorious Jennifer Mejias
2020 One would think that dropping your child off at school would be the safest place your child could ever be, besides being at home, but when something terrible happens at the school, who do you turn to? Victorious demonstrates how the Power of God could transform any grave situation into something totally miraculous and even perhaps unexplainable. In this true testimonial story, 13 year old Jordan Mejias embarks on a journey that would test the faith of even the strongest of Christian believers. At the height of his game as a recent All-American Football Player, everything would drastically change for him on January 12th, 2017, when during his off-season athletic period a game called 'King of the Mat' would leave him in a nightmare. He would experience the worst possible situation anyone could ever

face in his entire life. Left with a severe concussion that would disable him completely and eventually leave him in a dark place for not days but months at a time, the impact of it all would come to effect him physically and emotionally. It would result in a decision that would determine whether God's plan for Jordan was to either choose life or death. In the end, God decided his fate, and the transformation that took place afterwards, would bring about a fact that God still performs miracles to this day. And He performs them, Victoriously.

authors show how systematic screenings of behavior--used in conjunction with academic data--can enhance teachers' ability to teach and support all students within a response-to-intervention framework.

Chapters review reliable, valid screening measures for all grade levels, discuss their strengths and weaknesses, and explain how to administer, score, and interpret them. -- from publisher description
