**A Text Book of Geography for Class 7 (A.Y. 2023-24)Onward**

VEENA BHARGAVA 2023-05-20 We are pleased to present the series A Textbook of Geography for Classes 6 to 8. This series has been written in strict conformity with the latest curriculum. The new curriculum deals with the development of children's understanding and appreciation of the world through a continuous interaction and exploration of the natural and human environment. It also aims at encouraging children to appreciate the interdependence of individuals, groups and communities and promotes a healthy respect for different types of cultures and ways of life of people around the world. This series endeavours to introduce the practical aspect of the subject, along with the text, through appropriate Diagrams, Pictures, Maps, Mind Maps (graphic organisers)

and latest updates in the field of Geography. The series has been specially designed for the young learners to make the learning experience both enjoyable and informative. The nllant features of the booka In this sertas are - 1. Simple, lucid and student friendly language with scientific, logical and practical approach. 2. Precise and to-the-point contents are given to avoid unnecessary details. 3. Maps and diagrams have been kept simple and clear. 4. In most cases there are separate maps for different types of information instead of providing them in one map. 5. Map skills in regional geography play an important role in understanding the subject as well as laying foundation for the future Examinations. For all the continents covered in curriculum, Self Explanatory Colourful Maps with consolidated information have been given. For the convenience of the students and teachers, Practice Maps have been provided. 6. Colourful Mind Maps at the end of each lesson, give the gist of the lesson at a glance and are ideal for a quick revision. 7. Worksheets under Classwork have been introduced to comprehend the lesson. These are to be solved under the direct supervision of the teacher. 8. Comprehensive Exercise at the end of chapter contains all types of questions to consolidate learning. 9. Teacher's Resource Book containing answers of the exercise given at the back of each lesson is available. 10. As per the latest edition in the Board Examinations for ICSE, MCQ (Multiple Choice Questions) have been incorporated in the present set of books for 6th, 7th and 8th for exercise in the each chapter. The present set of books for classes 6, 7 and 8 is a continuation of my existing series of ICSE Geography for classes 9 and 10. This is a genuine effort to maintain the continuity in the ICSE syllabus from Classes 6 to 10 and prepare the students for the oncoming Board Examinations, right from class 6 onward. I hope to succeed in inculcating the interest and confidence amongst the students by providing the required guidance to achieve their ultimate goals. Any suggestions for improvement of the books are most welcome. -Author

**Transformative Education** Charlotte Graham 2022-08-03

Transformative Education aims decisively to transform the world of education and to nurture the next generation to become problem-solvers and creative thinkers, empowered with the necessary skills to make this world a better place. It provides practical methods for sustainable, integrative, and active learning, and investigates 'the why' behind these proven and effective methods. Discussing the different levels of subject integration in school, from intradisciplinary to transdisciplinary teaching, the authors analyse their potential holistic impact and knowledge retention effectiveness. With a substantial section on the efficacious teaching of the increasingly indispensable field of critical thinking, this book is built up first around a discourse of the intended methodology, secondly, it also includes a very practical mid-section with direct and meticulously described project ideas for teachers to try out, and finally a discussion and an analysis on what effects the proposed techniques might have and how teachers and students could be facilitated in their learning processes by school leaders and administrators. This pioneering endeavour is an important text for education professionals globally, as well as for the policy makers that regulate their work. It may also be of interest to parents and to a wider society. Additional digital resource content is available online and includes practical examples, explanations and video to help support sustainable, integrative and active learning.
