

A Short Course In Intellectual Self Defense

Twenty-first-century Canadian Writers

Christian Riegel 2007 Dedicated for nearly thirty years to making literature and its creators more accessible and intriguing to researchers, the series presents signed, authoritative biographical and critical essays on writers from all eras and genres. Rigorously meeting the standards of librarians and instructors, signed entries are written by academic experts in the field and include illustrations and extensive bibliographies.

A Short Course in Intellectual Self Defense

Normand Baillargeon 2011-01-04 What is the

relationship between democracy and critical thinking? What must a citizen in a democracy know to make the word democracy meaningful? In *A Short Course in Intellectual Self-Defense*, historian and educator Normand Baillargeon provides readers with the tools to see through the spin and jargon of everyday politics and news reporting in order to decide for themselves what is at stake and how to ask the necessary questions to protect themselves from the manipulations of the government and the media. Whether the issue be the call to what we're told will be a bloodless war, the "debate" around Intelligent Design, or the meaning of a military expenditure, Baillargeon teaches readers to evaluate information and sort fact from official and media spin.
