**Teaching Costume Design and Costume Rendering** Jennifer Flitton Adams 2024-01-19 Teaching Costume Design and Costume Rendering: A Guide for Theatre and Performance Educators clarifies the teaching process for Costume Design and Costume Rendering courses and offers a clear and tested path to success in the classroom. Drawing on the knowledge and experience of the author's twenty-five years of teaching as well as many decades of work by multiple other educators, this book provides a clear roadmap for teaching these two popular Theatre courses. It includes information on pedagogical theory, creating syllabi, preparing and structuring classes, crafting lectures, and analyzing students' work, with a heavy focus on specific teaching projects that have been proven to work in the classroom. All aspects of teaching costume design and rendering are considered, including body awareness, cultural sensitivities, script analysis, elements and principles of design, psychology of dress, choosing fabrics, period styling, and requirements of dance costumes. Included in the appendices are sample syllabi, and additional reading and research resources. Teaching Costume Design and Costume Rendering is a guide for theatre and performance educators ranging from secondary education to undergraduate programs and graduate studies. It is a valuable resource both for costume educators approaching costume design and rendering classes for the first time and for experienced instructors looking for new material for these courses.

**Leading the Co-Teaching Dance:** Wendy Murawski 2013-01-01 Learn how to implement co-teaching in your school! Leading the Co-Teaching Dance provides school leaders with the strategies, resources, best practices, techniques, and materials they need to establish and maintain successful co-teaching teams in their schools. The authors draw on both their experience and research to address the critical key factors: defining what co-teaching is and is not, understanding the menu of options and the benefits of co-teaching, keys to co-teaching and to leading co-teaching, developing a culture and structure to support co-teaching, and scheduling and planning strategies.

**Semantics and Morphology of Early Adjectives in First Language**

**Acquisition** Elena Tribushinina 2015 This book is about how toddlers

learn their first adjectives, such as, for example, red, big and tasty. Adjectives denote properties and enter child vocabularies later than words for objects (such as apple and tree) and actions (such as eat and run), probably due to lower frequencies in parental speech and greater

conceptual complexity. Adjective acquisition has received relatively little attention in child language research. Furthermore, cross-linguistic studies of adjective learning are virtually non-existent. This book represents the first systematic analysis of how children learning typologically different languages acquire adjective form, function and meaning. The cross-linguistic comparisons undertaken in the book provide valuable insights into universal and language-specific aspects of language acquisition. For each of the languages studied in this volume, the development of adjective semantics is studied in tandem with the development of morphology by testing two hypotheses: (a) the acquisition trajectory in the domain of adjectival morphology is determined by the typological properties of the target language; (b) irrespective of the languages being acquired, adjective learning is facilitated by universal conceptual mechanisms such as comparison and contrast.

**Shadow Education in Asia: Policies and Practices** Alam, Md. Bayezid 2024-08-15 Shadow education, the practice of private tutoring outside formal schooling, has become pervasive in Asia. Driven by intense exam competition and dissatisfaction with mainstream education, it plays a significant role in the region's educational landscape. However, its implications and regulatory frameworks still need to be studied and better understood. This book, *Shadow Education in Asia: Policies and Practices*, addresses this gap by comprehensively analyzing shadow education policies and practices in Asia. Despite its prevalence, shadow education's impact on students, families, and educational systems is complex and multifaceted. The lack of comprehensive research and understanding has led to challenges regulating and integrating shadow education into formal educational systems. Policymakers and educators struggle to address issues such as educational equity, student well-being, and the quality of education provided through shadow education. This book aims to inform policy discussions and reform efforts, ultimately contributing to a more nuanced understanding of this phenomenon and its role in Asia's educational landscape.
