Homestead Survival Marty Raney 2022-09-13

A practical guide to self-sufficient and sustainable living from the star of Homestead Rescue. Do you wish for a more resilient, sustainable, and empowered way of providing for your family in uncertain times? Are you worried about unreliable power grids, uncertain water supplies, or overly complex food chains? Veteran homesteader and star of Discovery's Homestead Rescue Marty Raney shares a big-picture vision of how ordinary families can become radically resilient homesteaders: powering, feeding, and caring for themselves through their own efforts, and on their own land. This book will guide you to:

- buy land with the natural resources to build and feed a homestead
- go off grid with your own power and water

systems • design a greenhouse that will keep growing even when it's snowing • confidently defend your home against all threats—grizzlies, forest fires, flash floods, and financial challenges Resources are only going to get more scarce. Raney will teach you to find food where others see dirt, and to build a home where others see empty land. He will inspire you to forge your own homestead dream and strengthen your family for all challenges to come.

Now in its fourth edition, the guide includes climate charts, information on outdoor activities and a highlights section to help travellers decide where to go to suit their interests.

One Year in Alaska Ellis Paul 2014-10-26 One

Year in Alaska is a unique and peerless guide for traditional living in the Alaskan woods and will provide a wealth of valuable information for all who have dreamed of that life. It is a useful survival and tip guide for the vacationing outdoor hobbyist and the serious adventurer alike. It is substantive enough to save your life if stranded alone in the wild (although that is not its main purpose) and lighthearted enough to be a tour guide to the Alaskan out-of-doors. The information and instruction provided here is timeless and not dependent upon modern day technology although it does make use of certain practical conveniences that have come into existence since the Gold Rush days such as the chainsaw, Deet bug repellent, nylon tarps and visqueen, outboard motors, etc.... But nearly all the gear, food and techniques are indistinguishable from the forms used a hundred, and in some cases, even a thousand, years ago; not "For old Fashions Sake" rather because they proved to be un-improvable. mind nothing captures and conveys the spirit of the frontier in the bush more perfectly than an old school flat bottom riverboat, loaded to the thwarts, pushed by a small motor. No wheel or console just you and a tiller against the wind. Add some rain and a 600 mile two week journey ahead of you and you are as close to the old world as you will ever be. The spirit of Old Alaska can't be found in a particular place simply by being there, rather it is a state of mind and a particular set of values and beliefs. It is a way of seeing things, not a way of dressing or intentionally depriving yourself of pleasure and conveniences. It's about minimizing your attachment and dependence upon the outside world and maximizing your self-sufficiency while being as comfortable as you can make yourself with simple things. It's not about self-denial - far from it - it's more about a form of self-indulgence and pursuing a certain kind of happiness: to live a life that nurtures a part of the soul that longs for independence and personal liberty.
