Formula 1: The Knowledge David Hayhoe 2021-12-06 The first edition of this book was groundbreaking: an entire book dedicated to F1 records and trivia, which proved hugely popular with F1 enthusiasts and fans of racing statistics. This new second edition is fully updated, with up-to-date stats, and an extended narrative including many amusing, and some serious, stories from the history of F1. There are performance records of every driver, every car constructor, and every engine make to have taken part, a detailed insight into the variety of qualifying procedures throughout the years, a summary of regulation changes since 1950 and a quick reference guide to every grand prix result. Performances are analysed by nationality, youngest/oldest, fastest/slowest, consecutive wins, poles, most wins at different circuits, and lots more. It's not just focused on drivers and cars, but circuits, engines and tyres too. A comprehensive photographic section depicts the changing scene of Formula 1 since its inception in 1950. This book will be an invaluable reference book, that will both entertain and provide definitive data at your fingertips. What reviewers said about the 1st edition: "This is the most amazing book. In this latest thing, the author has surpassed himself. This book gives you the facts about every aspect of Formula 1 you could possibly want to know, and a good deal more besides." - Bulletin of the British Racing Drivers' Club "The most comprehensive compilation of Formula 1 ever. Simply outstanding - you may know a lot about F1 - but here you have more, completely undiscovered items, oceans of F1 trivia to explore." - Gran Turismo, Sweden "A magnificent book. You can get to know absolutely everything on F1, rigorously documented compilation of the most exciting moments of F1 history. Essential for the 'geek' library all Formula 1. A new way of understanding F1." - Auto-Hebdo Sports, Spain "Weird triumphs, heroic failures, unfeasible stats, beyond belief coincidences! It's the story

of f1 like you've never read it before. A fest of nerdy entertainment as well as definitive data." - Car Magazine "Every Formula 1 fan will be amazed by this book, simply because they will discover so much they didn't know. A treat for all fans. Nothing less than the best book for Formula 1 statistics and curiosities." -

The Greatest Racing Driver Angus Dougall

2013-11-27 Who has been the worlds greatest driver, and how do you prove it? With an eye for detail and a flair for storytelling, this book explores motor racings rich history in pursuit of the best driver the world has ever seen. Most enthusiasts have a strongly held opinion as to racings finest driver over the century of the motor car. By putting aside bias and personal opinion, this books exhaustively researched, results-based analysis provides a definitive answer through clear and logical evaluation. These carefully considered, significant statistics, when merged together, reveal with incisive objectivity motor sports greatest driver as well as the qualities that define greatness.

Contentious? Possibly. Thought-provoking?

Definitely. Author Angus Dougall captures many aspects of the motor racing world with a selection of revealing anecdotes on the highlights of racings biggest stars, together with stories that bring to life people, places, insiders opinions of drivers, circuits, constructors, politics, insights, and comments on many of the drivers. For readers wishing to peruse the actual detail, there is a vast array of appendices displaying extensive race results lists, charts on driver performance, and car analysis. Motor racing fans, climb on board and hold on for an intriguing ride to the pinnacle of greatness.

Competition Law in Austria Viktoria H.S.E.

Robertson 2021-10-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in Austria covers every aspect of the subject - the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing

obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities' powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Austria will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law.

Regulating Competition in the EU Pernille

Wegener Jessen 2016-04-20 Competition law in the EU includes a wide range of topics and has developed into a very comprehensive area of regulation. This book covers the broader perspective of competition law, giving an overview of a very complex domain of EU law. Through all relevant sources of primary and secondary EU law the book presents the intricacies of the present competition framework for businesses and public entities. It draws the

lines between the different areas, and between competition law and the internal market project. The book covers all aspects of traditional EU competition law, as well as issues not formally regulated in the TFEU section on competition rules - the competition issues of the liberalised sectors and public procurement. Among the matters covered are the following: • the substantive rules on Articles 101 and 102 TFEU; • the enforcement rules of these provisions; • merger control; • the liberalised sectors, with focus on energy, transport, postal services and telecommunication; • state aid; • public undertakings; and • public procurement. With its enhanced view of EU competition policy, regulation, and enforcement, and its emphasis on specific industry sectors, this book offers an unusually thorough view of aspects of competition law which play an essential role in regulating the conduct of undertakings and public authorities in the market. It will be of special value to any lawyer, policymaker, or scholar active in European competition law. *Business rankings annual* Lynn M. Pearce 2007-09-21

Formula One Brian Harvey 2020-02-12 Filling the many gaps in Formula 1 records, this book re-writes the racing history books. The history of F1 can be neatly divided into two eras, the first formally ending January 1980 when the terms `Grand Prix` and `World Championship` became synonymous, although there would be three more non-championship races after that date. However, up to January 1973 OVER HALF of F1 races were NOT included in the Championship results for the spurious reason that each country should have just a single F1 race. The classification of many F1 races as 'non-Championship' did a disservice to the achievements of drivers of the Fangio, Moss, Clark and Stewart era and, even more-so, to the four pre-Championship years which began in 1946. When, today, a commentator says "Rosberg's 16th win equals the F1 wins of Stirling Moss" this is manifestly untrue. If the same drivers, in the same F1 cars, compete at the same tracks, and over a similar distance, then each race deserves to have its place in the records as a 'Championship quality' event. This book includes such races alongside contemporary Championship races and,

combined with known figures since 1980, produces what can surely be accepted as 'The Real Score' of Formula 1.
