The Best Web Sites for Teachers Vicki F. Sharp 2002

The Big Book of Home Learning Volume 1 Getting Started Mary Pride 2000-09

The Well-Trained Mind Susan Wise Bauer 2009-05-04 "If you're a parent who has decided to educate your children yourself, this book is the first you should buy."—?Washington Times The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to ?understand?, to be well-rounded and curious about learning. Veteran home educators Jessie Wise and Susan Wise Bauer outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," the middle school "logic stage," and the high school "rhetoric stage." Using this theory as your model, you'll be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. This newly revised edition contains completely updated ordering information for all curricula and books, new and expanded curricula recommendations, new material on using computers and distance-learning resources, answers to common questions about home education, information about educational support groups, and advice on practical matters such as working with your local school board, preparing a high school transcript, and applying to colleges.

The Complete Home Learning Sourcebook Rebecca Rupp 1998 Lists all the resources needed to create a balanced curriculum for homeschooling--from preschool to high school level.
