## **Data Processing and Microfilming Systems**

1965

The Texas Outlook 1927

**Learning Resources** 1976

**Current Topics in Education** 1973

*Texas Register* Texas. Secretary of State 2001

Proceedings of NECC 1981 Diana Harris 1981

This volume includes the texts of more than 50 papers presented at a conference which was organized to present in one forum all major work regarding computers in education in the United States, as well as abstracts of the special sessions, tutorials, and project presentations which took place at the conference. Among the topics covered in these materials are the following: simulations, videodisc project funding, administration, computer literacy, business,

higher education, computer science, humanities, science, social science, preschool/elementary applications, graphics, mathematics, engineering, and health education. (Author/LLS)

Proceedings of the Texas Conference on Computing Systems 1974

**Data Systems** 1979

**Masters Theses in the Pure and Applied**

**Sciences** Wade Shafer 1982 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) \* at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor,

Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 26 (thesis year 1981) a total of 11,048 theses titles from 24 Canadian and 218 United States universities. We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work. While Volume 26 reports

theses submitted in 1981, on occasion, certain universities do report theses submitted in previous years but not reported at the time. The Chronicle of Higher Education Almanac 1993
