The 21st Century Sniper Brandon Webb
2010-12-01 The twenty-first-century sniper is a mature, intelligent shooter who leverages technology to his deadly advantage. He has spent thousands of hours honing his skills. He is a master of concealment in all environments, from the mountains of Afghanistan to the crowded streets of Iraq. He is trained in science and left alone to create the unique art of the kill. To the sniper, the battlefield is like a painter's blank canvas. It is his job to simultaneously utilize tools, training, and creativity to deliver devastating psychological impact upon the battlefield. And it is he alone who is left with the intimacy of the kill. A complete practical guide for any modern sniper, former Navy SEAL and

military sniper Brandon Webb reveals the tips and basic training necessary to become an efficient marksman. Webb is an international authority on sniping, and after serving multiple missions in Iraq and Afghanistan, he ran the Navy SEAL sniper course, which is arguably the best sniper qualification course in the world. Including details on advanced sniper training for maritime, helicopter, and urban sniper operations, *The 21st Century Sniper* also touches on the latest research, development, testing, and evaluation of sniper weapons systems and optics. From trajectories and wind speed to camouflage and best vantage points and targets, Webb covers everything an expert sniper needs to know. This book is suitable for gun enthusiasts, outdoorsmen, the beginning sniper, and those with military backgrounds.
