Library Journal 1991

The Humanities Ron Blazek 1994 Updated and expanded to embrace new developments in the electronic environment and new emphases on multicultural and female influences and accomplishments, the fourth edition (3rd ed., 1988) of this guide to humanities information sources includes 1,250 major entries. Chapters cover general humanities, philosophy, religion, visual arts, performing arts, and language and literature. Organized as previous editions, the volume provides one chapter on sources and another on access for each area. The "sources" chapters have in-depth descriptions of both print and electronic tools; the "access" chapters relate to finding and retrieving information. Water Resources Management and Reservoir Operation Ramakar Jha 2021-09-20 This book explores many recent techniques including ANN, fuzzy logic, hydraulic models and IWRM utilized for integrated water resources management, a real challenge in India for obtaining high irrigation efficiency. The book deals with topics of current interest, such as climate change, floods, drought, and hydrological extremes. The impact of climate change on water resources is drawing worldwide attention these days; for water resources, many countries are already stressed and climate change along with burgeoning population, rising standard of living, and increasing demand are adding to the stress. Further, river basins are becoming less resilient to climatic vagaries. Fundamental to addressing these issues is hydrological modelling which is covered in this book Further, integrated water resources management is vital to ensure water and food security. Integral to the management is groundwater and solute transport. The book encompasses tools that will be useful to mitigate the adverse consequences of natural disasters.
