Christian Ethics Steve Wilkens 2017-06-27 Steve Wilkens edits a conversation between four major approaches to contemporary ethics in the Christian tradition: virtue, divine command, natural law, and prophetic. This accessible introduction includes contributions by Brad Kallenberg, John Hare, Claire Peterson, and Peter Heltzel.

Business Ethics Robert Frederick 2001 Can a corporation have a conscience? What is wrong with reverse discrimination? Can ethical management and managed care coexist? Hoffman, Frederick, and Schwartz address these and many other current, intriguing, often complex issues in corporate morality. This introductory business ethics text contains a thorough general introduction on ethical theory, 54 readings, and 25 cases. Divided into five parts, each with an introduction that presents the major themes of its articles and cases, the text contains an impartial, point-counterpoint presentation of different perspectives on the most important issues being debated in business ethics. Each chapter ends with questions that can be used for student discussion, review, tests/quizzes, or for student assignments. The fourth edition has 27 new readings, 15 new cases, and 10 new mini-cases.

Environmental Ethics Louis P. Pojman 2008 The most comprehensive introduction to environmental ethics available, ENVIRONMENTAL ETHICS offers students a current look at the issues and topics that dominate the field today, organized into two main parts that take students seamlessly from theory to application. This Fifth Edition of the Pojmans' popular anthology, like its predecessors, includes numerous topic areas not covered in other anthologies-including an all-new section on Climate Change. Featuring articles carefully selected for clarity and accessibility, the text follows a dialogic pro-con format presenting divergent positions on each topic, ensuring that students are both exposed to and understand both sides of every topic so they can develop their own informed positions. The bulk of royalties for this book are donated to groups dedicated to protecting the environment, such as the Wilderness Society and the Sierra Club.

Beyond Bumper Sticker Ethics Steve Wilkens 2011-09-02 Steve Wilkens exposes the complex ethical systems lurking behind the most common slogans of our culture, offering a Christian evaluation of each. In this revised and expanded edition, the author has updated his introductory remarks about each ethical system and has included new chapters on evolutionary ethics and narrative ethics.

Environmental Ethics Joseph R. DesJardins 1999 Publisher Description

The Silent Subject Brad Stetson 1996-01-19 When, God willing, the abortion controversy is behind us, partisans of the pro-life and pro-choice positions are going to have to live together in this society. That is why, sloganeering and passionate polemics are inevitable, civil conversation is essential. And that is why The Silent Subject is such a gift to all of us at this point in the controversy. (From the foreword by Richard John Neuhaus) The essays in this work constitute a sensitive, public argument for a reconstruction of the confused—yet dominant—popular attitudes toward nascent human life and its value. Unlike most pro-life arguments, it offers no strictly religious or exclusively sectarian warrants for its assertions - instead bearing a more secular cast, speaking to a generalized and pluralistic audience. As a whole, The Silent Subject embraces no specific, particular political ideology. Its contributors have a broad spectrum of professional interests, political perspectives and social philosophies - all of which indicates the fundamentally humanistic and apolitical nature of concern for the unborn and the degree to which they are esteemed. This unusual book is a refreshingly candid and morally compelling analysis of the social forces that superintend our cultural outlook toward unborn human life.

Ecotherapy Howard John Clinebell 1996 Graduate Theological Education and the Human Experience of Disability examines graduate schools of theology and their limited familiarity with the study of disability--and the presence of people with disabilities in particular--on their campuses. Dubbed a "missing note" by one theologian, this text offers critical research and illuminates new pathways for "theologia" and practice in the community of faith. Reviews of previous literature, theology, and practices illuminate how people with disabilities have historically been marginalized by the religious community. Theologians, people with disabilities, and researchers offer suggestions for incorporating disability studies into theological education and religious life.
