The Saturday Evening Post 1928

A Life with History John Morton Blum 2004 The author of such classic works as *The Republican Roosevelt*, *V Was for Victory*, and *Years of Discord*, John Morton Blum is one of a small group of intellectuals who for more than a quarter of a century dominated the writing of American political history. Writing now of his own career, Blum provides a behind-the-scenes look at Ivy League education and political power from the 1940s to the 1980s. Blum insightfully recounts a long and distinguished journey that began at Phillips Academy, where he first realized he could make a career of teaching and writing history. He tells how young men were socialized to the values of the Northeastern establishment in those years before World War II, and how

as a non-practicing Jew he learned to overcome bigotry both at Andover and at Harvard, which then had no Jewish professors. In 1957 Blum joined the faculty of Yale University's history department, widely regarded as the nation's best, where he became both influential and popular and where his students included one future U.S. president as well as others who aspired to the office. He reveals much about the inner workings of Ivy League education and tells of controversies over the Vietnam War and the Black Panthers, his role in Eugene McCarthy's presidential campaign, and how he searched for common ground between reactionary faculty and radical students. More than a recounting of a singular life, Blum's story explains how political history was researched and written during the second half of the

twentieth century, describing how the discipline evolved, gained ascendancy, and was challenged as historical fashions changed. It also offers revealing glimpses of such prominent academics as Kingman Brewster, Arthur Schlesinger, Jr., C. Vann Woodward, and William Sloan Coffin. Over a distinguished career, Blum witnessed considerable change in elite educational institutions, where minorities and women were grossly underrepresented when he first entered academia. In a memoir brimming with insight and laced with humor, he looks back at the academy—"not a refuge from reality but an alternative reality"—as he reflects upon his intellectual journey and his contributions to the study and writing of twentieth-century American history.

Flashbacks Michael Lydon
2003 Flashbacks is an eyewitness account of '60s rock as it was being made. Michael Lydon-the first editor of Rolling Stone and a participant in the rock revolution-enjoyed unique access to the people and events when rock was new. His profiles of the founding fathers and mothers of '60s rock are unique in that they are based on first-hand interviews and on-the-spot reporting. This collection includes the first piece written on the Monterey Pop Festival of 1967 (written only 48 hours after the festival, and never before published); an account of the Rolling Stones's U.S. tour of December 1969; Janis Joplin's dramatic rise and equally dramatic fall; The Grateful Dead at home in their communal house in San Francisco and on stage at Winterland; and much more.

Spy 1989-01 Smart. Funny. Fearless."It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.
