Money Laundering and Terrorism Financing in Global Financial Systems Rafay, Abdul 2021-04-16 During the last few decades, corrupt financial practices were increasingly being monitored in many countries around the globe. The past few decades have been eventful for these issues. Today, tackling money laundering and terrorism financing are considered key issues in developed and developing countries alike. Eradication of money laundering and terrorism financing through a holistic approach of awareness, prevention, and enforcement is a current need. It has enabled the birth of new regulatory regimes based on strict compliance, robust processes, and technology. One of the many problems with this is the lack of general awareness about all these issues among various stakeholders including researchers and practitioners. Money Laundering and Terrorism Financing in Global Financial Systems deepens the discourse about money laundering, terrorism financing, and risk management in a modern-day environment. It provides a fascinating and invaluable guide for understanding the theory, practice, and cases of these topics. Split into two sections, the first being money laundering and terrorism financing and the second being financial governance and risk management, the chapters create comprehensive knowledge on these acts of crime in the financial industry by defining the crimes themselves, the many challenges and impacts, and potential solutions. This book is ideal for government officials, financial professionals, policymakers, academicians, business professionals, managers, IT specialists, researchers, and students.

Terrorist Diversion Oliver May 2020-09-03 Many of the world's 40,000 International NGOs (INGOs) work in places where terrorist financing, sanctions breaches, and diversion are key risks. Almost all of the top ten recipient countries of humanitarian aid alone in 2015 were high-risk jurisdictions, for example, receiving more than £7bn between them. When they feel safe to speak, sector workers share sobering stories

about what might have happened to some of this money. As INGOs struggle to keep up with worsening humanitarian needs, diversion risks and their complexity remain daunting. The demands of internal stakeholders, donors, banks, and regulators are diverse and even contradictory. Public scrutiny has magnified, but is not always well-informed. Institutional donors transfer ever more risk to implementing partners, while some banks seek to avoid this business altogether, pushing some NGOs outside the global banking system. Looming over all of these converging pressures is a latticework of austere international sanctions and counter-terror regimes. It is no surprise that INGOs find themselves struggling to reconcile this complex set of expectations with their charitable missions. Yet the consequences of failing to do so can be severe; future funding is contingent on reputation, and serious offences litter the regulatory landscape. The implications of breaches can be existential for organisations and criminal for individuals. Terrorist Diversion: A Guide to Prevention and Detection for NGOs is an accessible, pragmatic guide for international NGOs of all shapes and sizes. Clearly explaining the nature of the challenge, and setting out a programme to meet it, it explores how it is possible for INGOs to manage these risks more effectively through their missions - not in spite of them.
