White and Black Hat Hackers
Jason Porterfield 2016-12-15
Hackers are those individuals who gain access to computers or networks without official permission. In this intriguing resource, readers learn the differences among white hat, black hat, and gray hat hackers and their ways of working concerning computer networks today. The origins and history of hacker culture are examined, as are the law

enforcement methods of catching criminals. Some of the topics covered are the motives for hacking, black hat targets, online hazards, malware programs, and typical hacker techniques. Government-sponsored hacking in cyber warfare efforts, hactivism, and famous hackers are also reviewed.

CEH Exam Self-Practice Review Questions for Certified Ethical Hacker Exam V8 Examreview 2015-02-04 An Ethical Hacker is one employed to undertake an attempt to penetrate networks and systems using the same methods and techniques as a hacker. This individual is expected to help in achieving optimal information security posture through scanning, testing, hacking and securing

their own systems. This exam has 125 questions. The candidate has 4 hours to answer all the questions. We create these self-practice test questions referencing the concepts and principles currently valid in all these exams. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to “simulate” actual exam questions.
