The Complete Idiot's Guide to the GED 5-Subject Crash Course Del Franz 2012-08-07

Each year, hundreds of thousands of people who did not finish high school study to take the battery of GED examinations. A GED diploma opens up a new level of career, education, and compensation opportunities for them. This crash course helps them get up to speed quickly on the five major subject areas they will be tested on, and gives them test-taking practice and hints. The easy-to-use Complete Idiot's Guide® format distills the information to its simplest and makes it easy to grasp and remember the essential concepts and facts readers must know to pass

the GED tests. Subjects covered include:

- Language Arts-Writing: Sentences; parts of speech; grammar; punctuation; writing cohesive paragraphs; and planning, writing, and editing essays
- Social Studies: U.S. history, government and civics, economics, world history, and geography
- Science: Scientific method, health and environment, biology, chemistry, physics, and earth and space science
- Language Arts-Reading: Fiction, poetry, drama, business writing, and nonfiction prose
- Mathematics: Number sense, arithmetic, measurement, geometry, statistics and probability, and algebra functions

The book also includes a half-length practice test for each of the five subjects, as well as extensive in-chapter practice sets and answer keys. An introductory chapter covers test-taking hints and strategies.

How do we get the attention of a nonscientist? And if we can get it, how do we keep it - not only for the duration of the course or the chapter in a textbook but beyond? How do we convey in our courses and our textbooks not just what we know but also how science is done? These are the challenges we hope to address with our new series of textbooks specifically for the nonscientist. With this series, W. H. Freeman and Scientific American join forces not just to engage nonscientists but to equip them critical life tools.
