**United Nations Peace Operations in Africa** Saleem Ahmad Khan 2023-03-22 This book provides a comprehensive overview of the United Nations peace operations in Africa with a focus on civil-military coordination and state-building. With case studies from Sudan, South Sudan, and Congo, it examines themes like the colonization of Africa and long-term conflicts; United Nations peace operations in Africa from 1956-1964; and United Nations’ return to Africa in the 1990s and 2000s. The author investigates how modern civil-military coordination gradually becomes an effective tool to assist in national-level state-building in conflict-ridden countries. The volume also discusses the organizational culture of civilian and military entities as well as civil-military cooperation in health, agriculture, energy, sports, and education to showcase the strategic direction for long-term peace in the region. Rich in ethnographic analysis, this book will be an essential read for scholars and researchers of African Studies, UN studies, peace and conflict studies, defence and strategic studies, international relations, and military studies.
