This guide stresses the importance of civic education among children especially and how the parents can scenario instances of government functions like townhall meetings or city board meetings. This guide is an excellent teaching tool for making our people better citizens so that they may learn to live the life and pull themselves out of despair and be respected finally by the government in which we live and the nations of the earth.

**Civic Sense: Uncle's Guide to Understanding**

**Government** Aaron Kershaw 2025-07-12 Civic Sense: Uncle's Guide to Understanding Government and Making Your Voice Heard is a powerful, engaging, and accessible guide to government, community, and personal agency-written especially for young people who want to understand how systems work and how to

change them. This isn't your typical dry civics textbook. With humor, storytelling, and cultural awareness, "Uncle Aaron" invites students into a world where civic life is relevant, urgent, and within reach. This book was created for students, teachers, families, and mentors who believe that real civic learning starts with real questions: What does government actually do? Why do some communities get more than others? Who makes the rules, and how can we change them? What's the point of voting if it feels like nothing changes? Uncle Aaron answers those questions—clearly and without condescension—while weaving in personal stories, real-world examples, and the kind of wisdom that comes from lived experience and years of community work. His voice is authentic, approachable, and grounded in love for his community. Each chapter explores a key theme of civic life: ∫ The three branches of government (and how they really work) ∫ What it means to be a citizen or resident ∫ The power-and limits-of voting ∫ Political parties and core values ∫ Disasters, FEMA, and emergency planning ∫ How courts and justice systems shape daily life ∫ Budgets, taxes, and tradeoffs ∫ Media, research, and staying informed ∫ Local government and how to get involved Rather than memorizing abstract vocabulary, students engage in activities, debates, and role-plays that build critical thinking, civic imagination, and communication skills. From creating their own political party to writing advocacy letters and making emergency plans, students become doers, not just readers. Whether you're a student discovering your civic identity, a teacher looking for meaningful content, a homeschooler seeking culturally relevant material, or a community mentor guiding the next generation, this guide offers tools, truth, and inspiration. Civic Sense isn't just a guide to how government works—it's a blueprint for how to show up, speak out, and build a more just world.

This handbook covers a variety of topics, such as how to start a passion project in the field of civics, how to have conversations on difficult topics, and how to lobby legislators to bring critical issues to the forefront. We hope that students will become more interested in government after reading this book! Written by The Education Department at The Institute for Youth in Policy, we take a by students, for students approach to civics education. Currently, we're working on an eight unit civics education curriculum, spanning topics ranging from climate change to social welfare policy; we presented this curriculum at the 2023 National Advanced Placement Conference hosted by the College Board in Seattle, Washington. We aim to spark meaningful conversations amongst students and break down political polarization. Our long term goal is to get our work in the hands of students, teachers, and classrooms, and we are currently pursuing this goal through partnering with education organizations such as Marco Learning and UWorld College Prep in order to connect with a network of teachers.
