Managing the Environment

John R. Beaumont 2013-10-22

Managing the Environment offers an interdisciplinary and multi-functional management approach to the environmental issues affecting business practice. Many of the books published on this subject have so far been written by environmental scientists or from a strictly economic viewpoint. Managing the Environment aims to redress the balance by considering the impacts of environmental issues on various management functions, including accounting and finance, marketing, production and operations, information systems and organizational behaviour and culture. Each chapter includes review and study questions, and case studies form an important part of the book. An up-to-date and practical text. Many examples and cases. A multi-functional management

approach

Greener Marketing Martin

Charter 2017-09-20 An examination of the progress of environmental marketing on a global scale. It considers how sustainability issues are increasingly becoming critical factors in how corporations meet the ever-growing demands and expectations of customers. The purpose of the book is to provide practitioners with best-practice examples and actionable recommendations on how to implement green marketing

activities. It provides information and ideas for those involved in marketing on how to incorporate green considerations into the marketing mix, as well as providing perspectives on marketing for environmental managers. To achieve a comprehensive viewpoint, the book is split into three sections. The first sets out the strategic issues and rationale for green marketing, the second addresses tactical issues in more detail, and the third provides detailed, international case studies. Topics addressed by the contributors include the growing debate around products versus services, environmental product development and eco-innovation, green marketing alliances, environmental communications, green consumers, eco-tourism and the problems associated with green marketing in developing countries.

Before Canada Allan Greer
2024-07-12 Long before Confederation created a nation-state in northern North America, Indigenous people were establishing vast networks and trade routes. Volcanic eruptions pushed the ancestors of the Dene to undertake a trek from the present-day Northwest Territories to Arizona. Inuit migrated across the Arctic from Siberia, reaching Southern Labrador, where they met Basque fishers from northern Spain. As early as the fifteenth century, fishing ships from western Europe were coming to Newfoundland for cod, creating the greatest

transatlantic maritime link in the early modern world. Later, fur traders would take capitalism across the continent, using cheap rum to lubricate their transactions. The contributors to *Before Canada* reveal the latest findings of archaeological and historical research on this fascinating period. Along the way, they reframe the story of the Canadian past, extending its limits across time and space and challenging us to reconsider our assumptions about this supposedly young country. Innovative and multidisciplinary, *Before Canada* inspires interest in the deep history of northern North America.

A Surgeon's Universe

Andrew S. Olearchyk
2011-07-21 The book *A Surgeon's Universe* is composed of a unique form intermediate between encyclopaedia, memoirs, medicine and documented

reportage. It encompasses data about the Universe, geography of the Earth and Europe as applied to their history, as well as to the history of Ukraine, including the fate of the Ukrainian (Rus') Peremyszl (in Polish - Przemysl) Principality (UPP) from antiquity, that is [id est (i.e.)] approximately 500 thousand years before Christ (BC), through the year of 2010. On the background of historical events are described the achievements of Ukrainians in the domains of culture, science, medicine and sport. Also, the author includes numerous clinical observations, the contribution of others and his own to general surgery, anesthesiology, thoracic and cardiovascular vascular surgery (TCVS). The book contains 1757 p., 2352 figures (fig.), each with subtitle in Ukrainian and English and I-XX tabl., is written in Ukrainian, with some parts in English, Russian, German and Polish.
