Introduction to Management Accounting Charles T. Horngren 1987

Managerial Accounting Charles E. Davis 2011-08-09 "Realizing that most students in an introductory managerial accounting course are not going to major in accounting, this book seeks to position managerial accounting in a broader context of business decision making."--Pref. Managerial Accounting for Strategic Decision Making, Preliminary Edition Charles E. Davis 2010-10-18 Business professionals that need to gain a stronger understanding of key accounting concepts will appreciate

this book's approach. It focuses on the core concepts framed within the context of one company, C & C Sports and its supply chain. Through this example, they'll learn fundamentals of how a business operates along with the type of decisions that managers must make on a daily basis. Focus On mini chapters incorporate streamlined, complete coverage of certain topics. Reinforcing examples and exercises are also included to enable business professionals to assess their level of understanding before progressing to more advanced discussions.

Cost Accounting Thomas R. Dyckman 1994 Written for the cost accounting course at the third level, this book should appeal to professors who see cost accounting as a cost information process to make more informed managerial decisions. This book features extended examples of cost techniques used by real companies, and real world examples which demonstrate a balance among manufacturing companies, service firms and non-profit firms.
