**Poverty, Gender and Migration** Sadhna Arya 2006-03-09 This volume studies the new migratory flows among Asian women, focusing particularly on poverty and the attendant issues of powerlessness that mediate women's migration. While gender provides the conceptual tool for mapping differential experiences of social reality, by identifying poverty and migration as significant axes around which social relations and processes unfold, the volume unravels the complex layers of needs, networks and choices that come into play in poverty-driven migration.

**Participatory Governance and the Millennium Development Goals (MDGs)** 2008 This publication represents a useful resource on citizen participation in governance and its role in effective realization of the internationally agreed development goals encapsulated in the MDG targets. The discussions contained herein should provide impetus for further dialogue among both government and civil leaders

**Paper Citizens** Kamal Sadiq 2008-12-02 In this groundbreaking work, Kamal Sadiq reveals that most of the world's illegal immigrants are not migrating directly to the US, but to countries in the vast developing world, where they are able to obtain citizenship papers fairly easily. Sadiq introduces "documentary citizenship" to explain how paperwork--often falsely obtained--confers citizenship on illegal immigrants. Across the globe, there are literally tens of millions of such illegal immigrants who have assumed the guise of "citizens." Who, then, is really a citizen? And what does citizenship mean for most of the world's peoples? Rendered in vivid detail, Paper Citizens not only shows how illegal immigrants acquire false papers, but also sheds light on the consequences this will have for global security in the post 9/11 world.

*Tax Systems and Tax Reforms in South and East Asia* Luigi Bernardi 2007-01-24 This book examines the present status, recent tax reforms

and planned tax policies in some South and East Asia countries since the 1990s. The evidence is presented in a user friendly manner, but at the same time uses technically sophisticated methods. The main countries studied are China, India, Japan, Malaysia, South Korea and Thailand. It is unique for being the first systematic treatment of the topic: hitherto, the information available has been widely dispersed and difficult to access. It should prove to be a natural companion to two previous books on taxation published by Routledge and also edited by Luigi Bernardi.

**The Challenge of Slums** United Nations Human Settlements Programme 2012-05-23 The Challenge of Slums presents the first global assessment of slums, emphasizing their problems and prospects. Using a newly formulated operational definition of slums, it presents estimates of the number of urban slum dwellers and examines the factors at all level, from local to global, that underlie the formation of slums as well as their social, spatial and economic characteristics and dynamics. It goes on to evaluate the principal policy responses to the slum challenge of the last few decades. From this assessment, the immensity of the challenges that slums pose is clear. Almost 1 billion people live in slums, the majority in the developing world where over 40 per cent of the urban population are slum dwellers. The number is growing and will continue to increase unless there is serious and concerted action by municipal authorities, governments, civil society and the international community. This report points the way forward and identifies the most promising approaches to achieving the United Nations Millennium Declaration targets for improving the lives of slum dwellers by scaling up participatory slum upgrading and poverty reduction programmes. The Global Report on Human Settlements is the most authoritative and up-to-date assessment of conditions and trends in the world's cities. Written in clear language and supported by informative graphics, case studies and extensive statistical data, it will be an essential tool and reference for researchers,

academics, planners, public authorities and civil society organizations around the world.

**Power in Contemporary Zimbabwe** Erasmus Masitera 2018-04-20 In recent years, the Zimbabwe crisis rendered the country and its citizens to be a typical case of 'failed states', the world over. Zimbabwean society was and is still confronted with different challenges which include political, economic and social problems. Attempts to overcome these challenges have thrown light on the power that rests within individuals and or groups to change and even revolutionize their localities, communities, states and ultimately the world at large. Through experience, individuals and groups have promoted ideas that have aided in changing mentalities, attitudes and behaviors in societies at different levels. This book brings together contributors from various academic disciplines to reflect on and theorize the contours of power, including the intrinsic and or extrinsic models of power, which pertain to individuals, communities, and or groups in order to transform society. Reflections are on various groups such as political movements, environmental movements, religious groups, advocacy groups, gender groups, to mention but a few, as they struggle against marginalization, discrimination, exploitation, and other forms of oppression showing their agency or compliance.

**Women's Rights** P. D. Kaushik 2007 Articles with reference to India; includes articles with special reference to legal cases related to abused wives in the state of Rajasthan, India.

**Global Economic Prospects 2006** World Bank 2005 International migration, the movement of people across international boundaries to improve economic opportunity, has enormous implications for growth and welfare in both origin and destination countries. An important benefit to developing countries is the receipt of remittances or transfers from income earned by overseas emigrants. Official data show that development countries' remittance receipts totaled \$160 billion in 2004, more than twice the size of official aid. This year's edition of 'Global Economic Prospects' focuses on remittances and migration. The bulk of the book covers remittances, including their size, determinants,

development impact, and steps to strengthen financial infrastructure and reduce transaction costs. It also presents available data on migration flows and examines current thinking on issues pertaining to migration and its development impact.

The World Bank Research Program 1998 World Bank Staff 1998 The four basic objectives of the World Bank's research program are: broadening understanding of development; assisting in developing research capacity in member countries; improving the Bank's capacity in advising members; and supporting all aspects of its own operations. The report is the annual compendium of current Bank research. The abstracts in this

volume report on research projects within FY98, describing questions addressed, analytical methods used, findings to date, and policy implications. In addition, each abstract identifies the expected completion date and the research team, as well as any report or publication produced. The abstracts cover 193 research projects grouped under nine major headings, as follows: 1) poverty and social welfare; 2) labor markets and education; 3) environmentally sustainable development; 4) infrastructure and urban development; 5) macroeconomics; 6) international economics; 7) domestic finance and capital markets; 8) transition economies; and 9) private sector development and public sector management. An appendix is included, listing reports and publications produced by Bank research with corresponding availability sources. Abstracts are indexed by the sponsoring unit.
