ACLS Study Guide - E-Book Barbara J. Aehlert
2016-10-06 Awarded second place in the 2017 AJN Book of the Year Awards in the Critical Care-Emergency Nursing category. Provide the best possible emergency cardiovascular care — using the newest ECC guidelines! ACLS Study Guide, 5th Edition offers a complete, full-color overview of advanced cardiovascular life support. An easy-to-read approach covers

everything from airway management to cardiac arrest rhythms and their management, electrical therapy, acute coronary syndromes, and acute stroke. In addition to the latest ACLS treatment algorithms, this edition includes case studies and hundreds of full-color photos and illustrations. - Case studies present common, realistic clinical situations, helping you learn and apply skills in cardiac rhythm interpretation, medication administration, and other essential interventions. - ACLS Pearls boxes offer brief explanations of complex topics and useful tips for clinical practice. - End-of-chapter quizzes include answers and rationales, helping you learn and remember the most important information. - Easy-to-understand approach simplifies your study of advanced cardiac life support, thanks to Barbara Aehlert's unique, conversational writing style. - NEW! UPDATED content centers on evidence-based practice recommendations, including the 2015 American Heart Association Guidelines for

Cardiopulmonary Resuscitation and Emergency Cardiovascular Care and the 2015 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations. - NEW! Improved format integrates all case studies into the appropriate chapters, so that you can apply concepts immediately to real-world situations. *Entry-level Exam Review for Respiratory Care* William V. Wojciechowski 2001 This examination review book provides a personalized study plan for candidates preparing for the National Board for Respiratory Care (NBRC) Entry-Level Examination. It presents an exhaustive review of the test matrix, including over 850 questions and analyses based on the 1998 NBRC Entry-Level Examination Matrix. A chapter on test-taking strategies is designed to build self-confidence, discusses when and how to guess, and explains how to think "the NBRC way." Each question contains a keyed answer, detailed analysis about the question, and a list of references for further

study. Detailed scoring forms are available throughout the book to assist candidates in evaluating strengths and weaknesses, and for assessing progress while working through the book. Each question is also linked to a specific examination matrix item allowing candidates to become familiar with the test matrix. A timetable is also included to help the candidates organize the time and activities. (KEYWORDS: RT, RTT, Respiratory Care, Respiratory Therapy, Resp. Care, Resp. Therapy, RC)

High-acuity Nursing Kathleen Dorman Wagner 2006 The Fourth Edition of "High Acuity Nursing" delivers essential understanding of complex patients and instructs both students and nurses on how to provide nursing care in varied clinical settings. Broken down into a series of learner-focused, active learning modules, "High Acuity Nursing" takes complex information and presents it in smaller, more accessible chunks that promote easier mastery by readers. As the modules progress in difficulty,

this text addresses the multiple-system problems that nurses face when caring for high acuity patients. With a focus on concepts and principles that can be applied across practice settings and patient populations, "High Acuity Nursing, Fourth Edition" is a learner-friendly approach that will help nurses and nursing students master the concepts and confidence necessary to succeed in today's health care settings. New to this edition: Greater attention to problems seen in high acuity populations Integration of research and Evidence Based Practice boxes throughout modules Conceptual approach to patient care that provides readers with an understanding of rationales Consistency and continuity among modules that is achieved by means of a single concept or nursing application format
