New Designs for Teaching and Learning Dennis Adams 1994-10-04 *New Designs for Teaching and Learning* offers a practical survey of the most important trends in education—including critical thinking, cooperative learning, and portfolio assessment—and shows how they can be translated into classroom practice. The book will help educators design classroom programs that foster teamwork and thinking while getting children actively involved in their own learning. Providing specific classroom activities at the end of each chapter, Dennis Adams and Mary Hamm show how these new instructional developments can be specifically applied to the content areas. They suggest concepts and techniques that can be used in math, science, reading and writing, and the arts. They examine how electronic media such as television, computers, and interactive telecommunication are transforming learning. And they discuss the topic of social responsibility and citizenship education. Successful teaching goes beyond the mere transmission of knowledge. By presenting a more dynamic view of teaching and learning, the authors open a world of possibilities for today's teachers and students.

Writing Through Children's and Young Adult Literature, Grades 4-8 Mary Strong 1993 Teaches the writing process using published works as the basis for writing experiences. Authors lead the way to authorship. The book includes literature-based writing ideas and suggestions for expanding students' creative abilities.

A Blueprint for Promoting Academic and Social Competence in After-School Programs Thomas P. Gullotta 2010-06-25 School activities alone are not always sufficient to ensure children's academic progress or socio-emotional development and well-being. And the time when many children typically have the least adult supervision – immediately after school – is also the time that they are at the highest risk to act as perpetrators or become victims of antisocial behavior. Throughout *A Blueprint for Promoting Academic and Social Competence in After-School Programs*, which focuses on children in grades 1 through 6, noted experts identify the best practices of effective programs and pinpoint methods for enhancing school-based skills and making them portable to home and neighborhood settings. This volume: (1) Analyzes the concepts central to effective after-school programs. (2) Offers developmental, cognitive, and social ecology perspectives on how children learn. (3) Features more than 100 exercises that develop young people's capabilities for academic, social, moral, and emotional learning – These exercises are ready to use or can be adapted to students' unique needs. (4) Emphasizes young people's development as students and as productive members of society during middle to late childhood and early adolescence. (5) Presents explicit theory and evidence that can be used to explain the value of after-school programs for budget proposals. This important book will find an appreciative, ready audience among the program directors who design after-school curricula, the educators who implement them, the mental health and social work professionals who help staff them, and the current crop of graduate students who will create the next generation of programs.

Ten Traits of Highly Effective Schools Elaine K. McEwan 2008-07-16

"This book is filled with strategies to assist school leaders in assessing

and monitoring many of the important elements that must be in place for kids to be successful. There are excellent tools that savvy leaders have been searching for—tools that will help them achieve their strategic vision of continuous improvement." —Gina Marx, Assistant Superintendent USD 262 Valley Center Schools, KS Increase your school's effectiveness and ensure academic excellence for all students! Written by best-selling author Elaine K. McEwan, this invaluable resource identifies the distinguishing qualities and unique characteristics of schools that help all students make outstanding gains in performance. Each chapter offers a comprehensive description of a research-based trait and examines its impact on student achievement. Featuring a "10 Traits Audit" for use by schools or districts, this book provides principals and administrators with: Tools and processes to facilitate the development of each trait Snapshots of each trait in actual schools and districts Reflections from teachers and administrators who have helped create effective schools Observations on the school improvement process from noted thinkers, theorists, and scholars Examples of documents, forms, and resources used in effective schools By nurturing these traits in their schools, educational leaders can build coherent instructional programs and create schools of equity and excellence.

Multilingual Education in Practice Sandra R. Schecter 2003 How can educators implement an inclusive and effective curriculum for ESL students? Sandra Schecter and Jim Cummins provide some answers from school-based practitioners and university-based researchers who worked on a collaborative project exploring strategies and structures that promote academic success for ESL students. This book documents the initiatives this group generated and carried out at two public schools. It also includes specific suggestions for developing school-based language policies and for preparing teachers to work effectively in linguistically and culturally diverse contexts. Each chapter highlights an innovative multilingual and multicultural approach to promoting ESL students' academic engagement. Chapter topics include: creating an inclusive climate for newly arrived students building on the language and cultural knowledge that students bring to school the roles of home, school, and community teacher preparation leadership in the diverse school. In addition to theory and practice, the book offers some great classroom stories with photographs and many examples of students' prose, poetry, and artwork.
