*Research Guide to Libraries
and Archives in the Low
Countries* 1991-07-30 The first
comprehensive guide in
English to libraries and
archives in Belgium, The
Netherlands, and Luxembourg,
this book gives humanities and
social science researchers easy
access to numerous important
unexplored collections. The
detailed entries fill the void
between international
directories (which provide
minimal information) and
country-specific guides in the
vernacular (which are largely
unknown to U.S. scholars). The
thorough descriptions are
based on selected on-site visits,

direct correspondence with
researchers, librarians, and
archivists, and bibliographic
research about the collections.
Part I contains a 90-page,
annotated bibliography
covering five categories of
publications: national
bibliographies, union catalogs,
biographical dictionaries,
directories and guides to
collections, and subject guides
and bibliographies. Part II
provides detailed descriptions
of the principal research
collections in Belgium, The
Netherlands, and Luxembourg.
The descriptions include basic
directory information, profiles
and histories, notes on special
collections, and details on
regulations affecting access.
Institutional, subject, and
author and title indexes are
also provided. This book is an
important research tool for
national and academic libraries
and archives, museums,
scholars of social science, and
Netherlandic studies, and

European Community depository libraries.

Colonialism in Africa 1870-1960: Volume 5, A Bibliographic Guide to Colonialism in Sub-Saharan Africa L. H. Gann 1969 This extensive bibliography on colonialism contains also a special section on German colonial rule (p. 386-411). The number of entries dealing specifically with Namibia is rather limited, but the section as a whole provides a careful selection of literature. The annotations reflect the conservative inclinations of the authors. (Eriksen/Moorsom 1989).
