Popular Music, Cultural Politics and Music

Education in China Wai-Chung Ho 2016-12-08 While attention has been paid to various aspects of music education in China, to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China. Before the implementation of the new curriculum reforms in China at the beginning of the twenty-first century, there was neither Chinese nor Western popular music in textbook materials. Popular culture had long been prohibited in school music education by China's strong revolutionary orientation, which feared 'spiritual pollution' by Western cultures. However, since the early twenty-first century, education

reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum. In relation to this topic, this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education. Ho presents music and music education as sociopolitical constructions of nationalism and globalization. Moreover, how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education, as well as the reformation of music education in mainland China, is discussed. Based on the perspectives of school music teachers and students, the findings of the empirical studies in this book address the power and potential use of

popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland.

Consumer Behaviour Leon Schiffman 2013-10-15 A trusted resource for Consumer Behaviour theory and practice. Consumer Behaviour explores how the examination and application of consumer behaviour is central to the planning, development, and implementation of effective marketing strategies. In a clear and logical fashion, the authors explain consumer behaviour theory and practice, the use and importance of consumer research, and how social and cultural factors influence consumer decision making. The sixth edition of this Australian text provides expanded coverage of contemporary topics.

ProQuest Statistical Abstract of the United States 2018 ProQuest 2017-12-15 The Statistical Abstract of the United States has provided a statistical portrait of social, political,

demographic, and economic conditions of America since 1878. This 2018 edition continues the heritage begun so long ago by the U.S. government, with the U.S. Census Bureau being the last agency to produce the compendium at government expense. Now in our sixth annual edition, Bernan and ProQuest carry on the proud tradition and responsibility of creating the statistical portrait of America. Librarians value the Statistical Abstract as both an answer book and a guide to statistical sources. Long-time users of the Statistical Abstract of the United States expect each new edition to carry forward much of the content from prior editions, as well as introduce new data as America continues to evolve. Our editors are committed to updating the long-standing, historical statistics as new data becomes available, as well as finding new topics to cover. The 2018 edition introduces 40 new tables covering a variety of topics such as: Health Insurance Enrollment and

Coverage Medicare and Medicaid Dual Enrollment and Medicare Utilization Prescription Psychotherapeutic Drug Use Foodborne Disease Outbreaks and Illnesses Presidential Pardons and Commutations Active Duty Military Personnel and Veterans Enrolled in Higher Education Freedom of Information Act (FOIA) And much more

[Third International Handbook of Globalisation, Education and Policy Research](#) Joseph Zajda
2021-09-17 This handbook presents a global overview of current research in education and education policy reforms during the last decade. It provides an accessible, practical and comparative source of current research that examines the intersecting and diverse discourses of this important issue. It first examines globalisation, education and policy research

and reforms in higher education, including coverage of main trends in education and policy reforms globally, as well as specific policy issues such as gender, equity, minorities and human rights. Next, the handbook offers a comparative perspective that evaluates the ambivalent and problematic relationship between globalisation, the state and education reforms globally. It features coverage on curricula issues and education reforms in schools around the world, the curriculum in the global culture, as well as globalisation and education futures, with respect to social justice and human rights. The handbook contributes to a better and a more holistic understanding of the education reforms and research nexus—offering possible strategies for the effective and pragmatic policy planning and implementation at the local, regional and national levels. It will serve as a vital sourcebook of ideas for researchers, practitioners and policy makers in education.

Consumer Economics Steven

Dale Soderlind 2001 Focusing

on the service economy, and designed especially for non-economics majors, this practical text establishes a new and enduring blend of topics for courses in consumer economics and consumerism. *Consumer Economics* develops useful perspectives and rules of thumb to guide decision making. As it introduces the fundamentals of markets, consumer choice, financial assessment, risk avoidance, etc., it presses students to appreciate the world of markets and to clarify their personal priorities for decision making in such a world. Boxed sections throughout the text illustrate concepts and provide examples, and each chapter includes a summary, consumer workshop, questions for study,

Handbook of Research on

Advancing Equity and

Inclusion Through

Educational Technology

Escudeiro, Paula 2023-08-09

Digital technologies play a significant role in the popular imagination about the future of education, as they are a prominent aspect of modern education provision and practice across the globe. Due to the increased adoption of digital education materials during the COVID-19 pandemic, the pedagogical significance of digital technology has been amplified. Advancing Equity and Inclusion Through Educational Technology builds upon the available literature in equity and inclusion through educational technology while providing further research opportunities in this dynamic and growing field. It provides the opportunity for reflection
