Electrical services supply and distribution

Great Britain: Department of Health: Estates and Facilities Division 2007-04-18 Part A, Design considerations, provides guidance for all works on the fixed wiring and integral electrical equipment used for electrical services within healthcare premises. This document should be used for all forms of electrical design ranging from a new Greenfield site to modifying an existing final subcircuit. It provides guidance to managers of healthcare premises on how European and British Standards relating to electrical safety such as the IEE Wiring Regulations BS 7671, the Building Regulations 2000 and the Electricity at Work Regulations

1989 can be used to fulfil their duty of care in relation to the Health and Safety at Work etc Act 1974.
