Lotus Europa: Colin Chapman's mid-engined masterpiece Matthew Vale 2022-04-14 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

Two Summers Robert Ackerson 2022-05-11 Two Summers offers a fresh, revealing and highly personal look at the culture of Grand Prix racing as it was during the 1954 and 1955 championships, with individual portraits of the twelve races in which the Mercedes-Benz W 196 R participated. This book explores the Mercedes-Benz W 196 R's historic roots, development, and its place in Grand Prix racing, detailing its triumphs, struggles and disappointments, as well as the spirited challenges from Maserati, Ferrari, Gordini and Lancia. With carefully crafted observations and conclusions, given added drama by richly detailed illustrations, this book captures the energy and dynamic nature of these racing seasons, and shows that Juan Fangio was indeed the ultimate master of the art and science of racing a Grand Prix automobile; the W 196 R the instrument with which he honed his skills. This book captures the decisive moments when victory - hanging in the balance - tilted in Fangio's favor, due to his iron discipline, and steady hand on the wheel. The W 196 R's racing days may be long gone, but the car remains a shining star of Mercedes-Benz' participation in motor sport heritage events worldwide. It is this timeless appeal of the W 196 R that gives Two Summers its vitality, charm and enduring attraction.

Lamborghini Murciélago Thillainathan Pathmanathan 2021-10-22 The wedge-shaped V12 Lamborghini flagships were always spectacular - in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murciélago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

Northeast American Sports Car Races Terry O'Neil 2022-02-07 The growth of sports car racing in Northeast America was not painless. Tragedy, mystery, subterfuge, intrigue, and an adherence to a particular club philosophy all featured in its story during the 1950s, when professionalism in the sport was always bubbling under the surface. The northeast area of America has long been considered the cradle of post World War II sports car racing; the Sports Car Club of America was founded there, and it was the entry point to America for a host of European sports cars. Early in the 1950s, road races had been permitted by some State authorities, but due to fatal accidents a ban on such racing came into effect. Forced to find alternative venues, the motor clubs were attracted to civil airports and a few military bases. But the drivers craved more challenging venues on which to hone their skills. This resulted in a few individuals chancing their reputation - and a great deal of money - and opening purpose-built circuits. This book gives a unique insight into this intriguing journey through the decade. Extensively researched, the

compelling story and stunning contemporary photos, many previously unpublished, paint a fascinating portrait of a nascent sport coming into its own.

The Book of the Ferrari 288 GTO Joe Sackey 2022-02-08 Over three years in the making, this book covers the background, conception, design, production and aftermath of the iconic Ferrari 288 GTO, including the prototypes, the early production cars, the mainstream production cars in their various specification guises, and the Evolution cars planned for the aborted Group B FIA race series. The work features nearly 400 relevant photographs, from original production images to the cars as they are today, including the 1984 Geneva Salon where the car debuted, the first ever GTO Reunion in 1985, current salon and action images, right up to the 25th Anniversary Ferrari 288 GTO Reunion held in America in 2009. Also featured are the actual factory production approval sheets, as filed with the Italian government, in an illustrated technical drawing form, along with a chassis by chassis register of every 288 GTO built, including destroyed prototypes, production cars, and GTO Evoluzioni - in fact all 284 cars ever built. This book contains essential resources covering all aspects of the car, including archives, maintenance specialists, restoration specialists, worldwide clubs, parts sources, etc. A comprehensive, beautifully illustrated look at a unique sports car, and a must-have for true Ferrari fans.

Vincent Motorcycles Philippe Guyony 2021-10-28 Very few motorcycles have carved a mark in history like the Vincent V-twin, from its arrival in 1946 and up to the present day. On the road, in club racing, in drag races, or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: "The World's Fastest Standard Motorcycle." It was a FACT - NOT a slogan. Images such as that of Rollie Free, in swimming trunks, laying flat on his works-modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948, have now passed into posterity. In fact, the big Vincent was so ahead of its time, that it continued to compete successfully - almost arrogantly - in racing until the mid-1970s, against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production, Fritz Egli's 1967 Egli-Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations and this book traces, holistically, the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today.

Rootes Cars of the 1950s, 1960s & 1970s: Hillman, Humber, Singer, Sunbeam & Talbot David Rowe 2021-10-05 The Rootes Group, although only achieving a 10-12 per cent market share, were the sixth largest British car manufacturer: more importantly, during the 1950s, more than half the cars they produced were exported. With every model produced from 1950 onwards featured in full colour and with detailed information - including colour schemes, optional equipment, technical specifications, plus other manufacturers' cars built using Rootes components - this is the ultimate book for all Hillman, Humber, Singer and Sunbeam enthusiasts. Cars produced by Chrysler/Talbot and Peugeot after their acquisition of the Rootes Group are also included. This book includes hundreds of original photographs, taken by the author at many car shows over a number of years, and provides a unique pictorial history of Rootes-manufactured cars.

N.A.R.T. Terry O'Neil 2020-01-31 Most people with an interest in motor sport will be familiar with the acronym N.A.R.T., yet few people profess to know too much about the North American Racing Team. Starting in the the second half of the 1950s, NART existed for three decades, during which it experienced

successes on the tracks of America and Europe. It also suffered financial difficulties, and arguments with track organisers. This book explains what NART was, how it was formed, and what it achieved over three decades of competition. It wasn't just sports cars that were entered into races, NART entered Formula One cars and Formula Junior cars as well. Never as financially stable as his rival team owners, Chinetti did deals with Ferrari to purchase the latest specification sports cars at the end of a season, in order to attract the best drivers to drive for NART. It was also an opportunity to lease the cars on a race-by-race basis, an arrangement that appealed to some of Chinetti's clientele. Whilst success on the track was significant, problems were never far away. Working on the cars with a limited number of staff, and not receiving spares from Ferrari on time, NART always appeared to be in a state of crisis. No matter ... despite the difficulties, the formula worked well for Luigi Chinetti, and the acronym N.A.R.T. has rightly become legendary.
