Lemon-Aid New Cars and Trucks 2012 Phil

Edmonston 2011-12-03 Phil Edmonston,

Canada's automotive "Dr. Phil," pulls no

punches. He says there's never been a better

time to buy a new car or truck, thanks to a

stronger Canadian dollar and an auto industry

offering reduced prices, more cash rebates, low

financing rates, bargain leases, and free auto

maintenance programs. In this all-new guide he

says: Audis are beautiful to behold but hell to

own (biodegradable transmissions, "rodent

snack" wiring, and mind-boggling depreciation

Many 2011-12 automobiles have "chin-to-chest

head restraints, blinding dash reflections, and

dash gauges that can't be seen in sunlight, not to

mention painful wind-tunnel roar if the rear

windows are opened while underway Ethanol

and hybrid fuel-saving claims have more in

common with Harry Potter than the Society of

Automotive Engineers GM's 2012 Volt electric

car is a mixture of hype and hypocrisy from the

car company that "killed" its own electric car

more than a decade ago You can save \$2,000 by

cutting freight fees and "administrative" charges

Diesel annual urea fill-up scams can cost you

\$300, including an \$80 "handling" charge for

American Business Regulation William Lesser

2015-03-26 While there are lengthy texts discussing the economics of why and how governments regulate business and apply antitrust, this book is unique in providing the details of current business regulation in many industries through lengthy examples the author develops with the use of cases, including Harvard Business School cases. Students are then guided to devise business strategies of introducing new products within the scope of regulation (known or unknown). While the economic theories of regulation are covered, the focus of this text is a "hands-on coping" with regulation and using regulation as a business strategy to deal with competitors. Online instructor's materials are also available for adopters.
