convenience we have brought together in one handy volume the three departments of study in Teacher Training, namely: the Sunday School, the Pupil, and the Word of God. Sunday School Method and History is a complete revision of the author's former book, and Books of the Bible is entered here without revision, the same as it heretofore appeared, and some maps are added.

Nigerian Pentecostalism and Development

Richard Burgess 2020-04-06 This book examines

the contributions, both intentional and

unintentional, of Nigerian Pentecostal churches

and NGOs to development, studying their

development practices broadly in relation to the

intersecting spheres of politics, economics,

health, education, human rights, and

peacebuilding. In sub-Saharan Africa,

Pentecostalism is fast becoming the dominant

expression of Christianity, but while the growth

and civic engagement of these churches has

been well documented, their role in development

has received less attention. The Nigerian

Pentecostal landscape is one of the most vibrant

in Africa. Churches are increasingly assuming

more prominent roles as they seek to address

the social and moral ills of contemporary society,

often in fierce competition with Islam for

dominance in Nigerian public space. Some

scholars suggest that the combination of an

enchanted worldview, an emphasis on miracles and prosperity teaching, and a preoccupation with evangelism discourages effective political engagement and militates against development. However, Nigerian Pentecostalism and Development argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices. This book goes on to explore the increasingly transnational approach that churches take, often seeking to build multicultural congregations around the globe, for instance in Britain and the United States. Nigerian Pentecostalism and Development: Spirit, Power, and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development, and to development practitioners and policy-makers working in the region.
