School Choice: Separating Fact from Fiction

Patrick J. Wolf 2020-05-21 School choice is a hot topic in the United States. Private school vouchers, public charter schools, open enrollment, and homeschooling all regularly appear on the policy agenda as ways to improve the educational experience and outcomes for students, parents, and the broader society. Pundits often make claims about the various ways in which parents select schools and thus customize their child's education. What claims about school choice are grounded in actual evidence? This book presents systematic reviews of the social science research regarding critical aspects of parental school choice. How do

parents choose schools and what do they seek? What effects do their choices have on the racial integration of schools and the performance of the schools that serve non-choosing students? What features of public charter schools are related to higher student test scores? What effects does school choice have on important non-cognitive outcomes including parent satisfaction, student character traits, and how far students go in school? What do we know about homeschooling as a school choice? This book, originally published as a special issue of the *Journal of School Choice*, provides evidence-based answers to those vital questions.

Equity and Education Since *Brown v. Board*

Na'ilah Suad Nasir and Linda Darling-Hammond
Responsible Reproductive Choice in the 21st Century Malcolm de Roubaix 2023-01-05 This

book systematically traces the development, significance, and implications of female reproductive choice. Paramount is the right to safe termination of pregnancy (TOP). In the USA, these rights are under threat after the reversal of Roe v Wade (1973), confirming the eternally contested nature of the pro-life/pro-choice standoff. The approach is unique and from all angles – historical, social, emotional, and legal. South African experience is evaluated against a global backdrop. Arguing from an ethics of responsibility, the book presents a justified, balanced, rational, and moderate position on the moral acceptability of TOP. It proposes that the morality TOP be evaluated by balancing inherent foetal moral significance against contingent potentiality: context and circumstance that may determine foetal development. TOP is a choice a woman faces with each pregnancy. It always has moral implications – exclusive to the life of the woman. So, too, do continued pregnancy and

parenthood, but these are of greater magnitude and duration.

Doing a Systematic Review Gemma Cherry
2023-11-08 Completing a systematic review and unsure where to start or what path to take? Set out on your journey confidently with this practical guide written by a team of experienced academics. With a friendly, accessible style, the book covers every step of the systematic review process, from planning to dissemination. This book will help you to:

- Work with qualitative, quantitative and mixed methods data
- Understand the how-to of systematic reviews with a range of real-life examples and case studies
- Learn from students who have been in your shoes with FAQs taken from actual supervision meetings.

This book will not only support you to overcome common challenges and pitfalls, it will give you the knowledge and skills to produce an excellent review and you might even enjoy the journey! Alongside updated examples and case studies, this edition also

includes two new chapters to help you write and register your review protocol and understand and synthesise data from correlational and experimental studies. The book is accompanied by an online guide for teaching, including videos, example documents, further reading, software recommendations and weblinks.

The Invention of Childhood Creativity Cat Martins 2024-11-15 This text offers a comprehensive analysis of the concept of the modern creative and imaginative child in Western education. Drawing on archived sources and historical works, it reframes childhood creativity as a social, cultural, and scientific construction, asking how our thinking and acting toward the creative child have been produced historically. The text dissects the discursive construction of creativity as a natural and developmental attribute of the child. It argues that the idea of the White creative child, constructed through comparative reasoning, shaped by primitivism, and illustrated through botanical metaphors as close to nature and the senses, is a notion embedded with colonialities, forming part of a Western civilizing project and
